German Military and the Weimar Republic Karen Schaefer, 2020-03-30 General Hans von Seeckt 1866 1936 was the military counterpart of the Weimar Republic both attempted to restore Germany's international acceptance and security following defeat in World War I and the Treaty of Versailles of 1919 And the failure of both led eventually to the rise of Hitler and Nazi Germany Hans von Seeckt was from the traditional German officer caste served with distinction on the war and became Chief of the Army Command at the Reichewehr Ministry of the Weimar Republic and Germany's supreme soldier and major military strategist His role was to re build the shattered German army in face of the punitive terms of post war settlement imposed by the victorious Entente Powers which drastically reduced its strength and imposed crippling financial conditions He aimed to build a modern and efficient military a new German army with a main strategy of peaceful defence purposes and to re introduce Germany into the community of nations This original and far sighted policy was opposed by the movement seeking revenge for defeat a stab in the back led principally by his rival General Erich Ludendorff whose aim was re build the once mighty German imperial army as a major international force The failure of von Seeckt's experiment was mirrored by the fall of the Weimar Republic and the rise of rise of Hitler and Nazi Germany **Germans to the Front**

David Clay Large, 2000-11-09 In Germans to the Front David Large charts the path from Germany's total demilitarization immediately after World War II to the appearance of the Bundeswehr the West German army in 1956 The book is the first comprehensive study in English of West German rearmament during this critical period Large's analysis of the complex interplay between the diplomatic and domestic facets of the rearmament debate illuminates key elements in the development of the Cold War and in Germany's ongoing difficulty in formulating a role for itself on the international scene Rearmament severely tested West Germany's new parliamentary institutions dramatically defined emerging power relationships in German politics and posed a crucial challenge for the NATO alliance Although the establishment of the Bundeswehr ultimately helped stabilize the nation the acrimony surrounding its formation generated deep divisions in German society that persisted long after the army took the field According to Large the conflict was so bitter because rearmament forced a confrontation with fundamental questions of national identity and demanded a painful reckoning with the past East

German Civil-military Relations: the Impact of Technology, 1949-72 Dale Roy Herspring, 1973 **The Bundeswehr and the National People's Army** M. Donald Hancock, 1973 The East German Army Thomas M. Forster, 2021-01-26 This book

first published in 1980 provides a detailed analysis of the East German army in the last decade of the Cold War It examines the capabilities of the main force after the Soviet army in the Soviet Bloc and shows how it depended on more things than purely military factors and national policies It focuses the army as part of a society that had been comprehensively militarized through socialist military education and shows that it was closely tied to the Soviet army with no military doctrine of its own In this way this book provides an analysis of not just East German domestic policies over which its army held great

sway but also of Soviet Bloc strategic planning for conflict in Western Europe **The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University** Hoover Institution on War, Revolution, and Peace, 1969
