Summa of the Christian Life Luis (de Granada), 1954 **Journal of the Kafka Society of America**, 2003 Rediscovering Rubén Darío through Translation Carlos F. Grigsby, 2024-06-13 A long overdue examination of Rubén Darío's multilingual work and influences alongside the contexts and politics of canonization in world literature Rediscovering Rubén Darío through Translation addresses the peculiar obscurity of Darío by asking these questions How can one of the most important writers of a major world language be almost entirely unknown in the English speaking world How is it that other writers of the same language e.g. Lorca or García Márquez achieve widespread recognition in the anglophone world while he remains unnoticed What role does translation play in this What can it tell us about the way in which world literature is articulated Carlos F. Grigsby approaches Darío's oeuvre through translation In doing so he explores not only the place of Darío in the translation of Spanish American literature into English but also the place of translation in Darío's own writing The result is a double sided painting as it were the recto is titled Translation in Darío and the verso Darío in Translation This book challenges the field of world literature by revealing some of the biases present in its representation of Spanish American literature It adopts a multilingual framework chiefly using English Spanish French and to a lesser

degree Latin and Catalan in analyzing Daro's writing alongside that of his contemporaries. As a result it reveals the multilingualism of Daro's own writing opening new avenues for the study of his work and of Spanish American modernismo more generally. **A Theological Book List of Works in English, French, German, Portuguese, Spanish**, 1963
