Parapsychology Etzel Cardeña, John Palmer, David Marcusson-Clavertz, 2015-08-14 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones. What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates. Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone's satisfaction. This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don't know about so-called psi phenomena such as telepathy, precognition or psychokinesis. Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory, wish fulfillment and incorrect methods or analyses in some cases offering psychological, physical and biological theories. Instructors considering this book for use in a course may request an examination copy here.

Rebel Witch Kelly-Ann Maddox, 2021-04-13 A truly contemporary take on how to be a witch. Rebel Witch is an antidote to the cookie cutter witchcraft agenda that gives a new perspective on the craft, asking each reader to create a powerful, personalized practice that taps into the current mood of female empowerment and spiritual rebellion. Rebel Witch reminds witches of the wondrous opportunity to jump into experimentation and invent something wild and individual, a practice shaped by their individual personality and life journey rather than allowing themselves to be spoon fed. It challenges witches to design a nurturing practice that is truly theirs. There's information about all the elements of the craft from energy raising, sacred space creation and receiving signs to casting spells, holding rituals, scrying, potions and much more. Crucially, in each case the topic is discussed from an exciting contemporary perspective. So when Kelly Ann talks about sacred texts, she stresses that you can choose the texts that resonate with you so why not Alice in Wonderland or Narnia? Maybe you want to move away from the traditional Wheel of the Year and create your own divisions. Instead of honouring a traditional deity, why not construct your own, choosing elements from rock stars, movie icons or fictional heroes? Or embody magical signs in your

clothing and jewellery Creativity and experimentation are encouraged with tips to help the reader to be inventive A curious reader with a desire to create an inspired deeply personal path and free themselves from conformity will finish the book ready to take action and make magick happen *The Software Encyclopedia 2001* ,2001 [Out of this World](#) Alexandra Levin,2003
