Online South American Handbook 2016 Footprint:

The Oxford Handbook of Food, Water and Society John Anthony Allan, Brendan Bromwich, Anthony Colman, Martin Keulertz, 2019 Society's greatest use of water is in food production which makes farmers central to global environmental management Current food value chains however do not enable farmers to both feed a growing population and steward natural resources Through a carefully curated collection of articles written by water and food system scientists and professionals including farmers this Oxford Handbook considers the interconnected issues of real water in the environment and virtual water in food value chains and investigates society's influence on both This perspective highlights considerable challenges for food security and environmental stewardship in the context of ongoing global change The book discusses these issues by region and by selected commodities emphasizing innovation needed for the food system to meet future challenges

Feasible Planet - A Guide to More Sustainable Living Ken Kroes, 2017-11-05 Are you concerned about the state of our planet and hope that governments and corporations will find a sustainable way for us to live If you do not think about it too hard that may work but will it Left on their own with drivers of popularity and profits I am not too convinced that it will The missing part of this equation is you and me Individuals who believe that corporations and governments can do better Individuals who believe that through action we can buy a bit more time to develop and implement solutions to our critical issues Did I hear a groan out there when you read the word actions Do not worry Most of the actions that I am referring to will not only help save the planet but will benefit you right away through saving money time better health and having a happier life in general Sustainability goes beyond controlling our consumption and pollution There are key social political and economic areas that need to be addressed as well and there are several steps that individuals can take to help in these areas For those of you who feel we could do more this book is for you and is loaded with actionable activities the reasons for doing them and explores why we are not doing them already Every journey starts with a first step Hopefully this book will lead to those first sustainable steps and that will change the world
