Ontology And Metaontology A Contemporary Guide:

Ontology and Metaontology Francesco Berto, Matteo Plebani, 2015-03-26 *Ontology and Metaontology A Contemporary Guide* is a clear and accessible survey of ontology focussing on the most recent trends in the discipline Divided into parts the first half characterizes metaontology the discourse on the methodology of ontological inquiry covering the main concepts tools and methods of the discipline exploring the notions of being and existence ontological commitment paraphrase strategies fictionalist strategies and other metaontological questions The second half considers a series of case studies introducing and familiarizing the reader with concrete examples of the latest research in the field The basic sub fields of ontology are covered here via an accessible and captivating exposition events properties universals abstract objects possible worlds material beings mereology fictional objects The guide s modular structure allows for a flexible approach to the subject making it suitable for both undergraduates and postgraduates looking to better understand and apply the exciting

developments and debates taking place in ontology today **The Routledge Handbook of Metametaphysics** Ricki Bliss, J.T.M. Miller, 2020-07-14 Philosophical questions regarding the nature and methodology of philosophical inquiry have garnered much attention in recent years Perhaps nowhere are these discussions more developed than in relation to the field of metaphysics The Routledge Handbook of Metametaphysics is an outstanding reference source to this growing subject It comprises thirty eight chapters written by leading international contributors and is arranged around five themes The history of metametaphysics Neo Quineanism and its objectors Alternative conceptions of metaphysics The epistemology of metaphysics Science and metaphysics Essential reading for students and researchers in metaphysics philosophical methodology and ontology The Routledge Handbook of Metametaphysics will also be of interest to those in closely related subjects such as philosophy of language logic and philosophy of science **Nietzsche as Metaphysician** Justin

Remhof, 2022-11-18 This book defends the controversial view that Nietzsche is a metaphysician against a long standing tendency to sever Nietzsche from metaphysical philosophy Remhof presents a metametaphysical treatment of Nietzsche s writings to show that for Nietzsche the questions answers methods and subject matters of metaphysical philosophy are not only perfectly legitimate but also crucial for understanding the world and our place within it The book examines aspects of Nietzsche s thought that have received little attention in the literature including his view of what makes metaphysics possible his metaphysics of science his naturalized metaphysics how he appeals to the intuitions of readers how he employs a priori reasoning how he uses metaphysical grounding explanations and how metaphysics is intertwined with topics central to his philosophical thinking including his understanding of becoming ethics nihilism life perspective amor fati and eternal recurrence Nietzsche as Metaphysician will be of interest to scholars and advanced students working on Nietzsche and the history of metaphysics Thomasson on Ontology Miguel Garcia-Godinez, 2023-06-10 Amie L Thomasson the Daniel P Stone Professor of Intellectual and Moral Philosophy at Dartmouth College has gained international recognition as a leading figure

within various areas of philosophy She has recently been celebrated as one of the most influential living philosophers for her significant contributions to metaphysics ontology phenomenology and aesthetics By engaging critically with her approach to metaphysics modality conceptual analysis and the methodological issues concerning ontological questions about ordinary objects social entities and fictional characters as well as including a chapter from Thomasson herself where she makes explicit the internal connections which run through her body of work this volume delivers the first thorough discussion of Thomasson's philosophy

Deflationist Conceptions of Abstract Objects Xavier de Donato-Rodríguez, José L. Falguera, Concha Martínez-Vidal, 2025-12-02 This book offers an overview of recent discussions on deflationary approaches to ontology and abstract objects The essays compiled in this volume constitute previously unpublished original material aiming at exploring current ideas on deflationary approaches to ontology and their relationship to abstract objects covering issues ranging from the ontology of mathematics and scientific theories to the semantics of fictional expressions and possible worlds The complete volume represents a contribution to current debates on the nature and epistemology of abstract entities Its target audience comprises researchers professionals lecturers and students of philosophy mainly with interests in metaphysics ontology and metaontology

Being and Nothing Lorenz B. Puntel, 2025-05-15 In this masterful work leading German philosopher Lorenz B Puntel answers the primordial question of philosophy Why is there Being at all and not absolutely nothing Considering the history of philosophy from Parmenides through to Heidegger and beyond Puntel charges philosophy with persistently failing to adequately confront the question of Being In response Puntel sets out a systematic philosophy to rival Hegel's Science of Logic and Whitehead's Process and Reality In two parts the book first surveys the history of Western philosophy through the theoretical framework of Structural Systematic Philosophy SSP which unites continental philosophy's comprehensiveness with the precision and linguistic rigor of the analytic tradition Analysing all of the major stages in the forgetfulness of Being in Western philosophy Puntel establishes a dialogue with a vast number of thinkers and movements in the history of philosophy including Plato Aquinas Duns Scotus Francisco Suarez Christian Wolff Leibniz Hegel Nietzsche Heidegger Sartre W O Quine Peter van Inwagen Kit Fine Alexius Meinong and Jean Luc Marion The second part develops the methodical question of a systematic theory of Being Puntel sets out a universal metaphysics introducing concepts of world existence and types of beings Moreover he examines the plurality of possible worlds the disclosure of Being and modern philosophies of subjectivity since Kant including the analytic philosophies of Robert Brandom and Ernst Tugendhat The book culminates in a theory of Being and explains the relation of Being to the concept of God Being and Nothing is the third in Puntel's trilogy comprising Structure and Being 2008 and Being and God 2011 and is a book that will appeal to all those with an interest in the history of philosophy continental philosophy theology and analytic philosophy

Quo Vadis, Metaphysics? Mirosław Szatkowski, 2019-11-18 The old philosophical discipline of metaphysics after having been pronounced dead by many has enjoyed a significant revival within the last thirty years due to the application of the

methods of analytic philosophy One of the major contributors to this revival is the outstanding American metaphysician Peter van Inwagen This volume brings together twenty two scholars who in commemoration of Prof van Inwagen s 75th birthday ponder the future prospects of metaphysics in all the richness to which it has now returned It is only natural that logical and epistemological reflections on the significance of metaphysics sometimes called meta metaphysics play a considerable role in most of these papers The volume is further enriched by an interview with Peter van Inwagen himself *The Philosopher's Index* ,2007 Vols for 1969 include a section of abstracts Subject Index to Periodicals ,2009 *Metaontology* Kris McDaniel,2025-07-31 Metaontology is the branch of philosophy that focuses on questions that naturally arise when doing ontology This Element offers the reader some of the elements of metaontology by way of an opinionated overview of some of its central arguments and positions The first section of this Element focuses on whether there are nonexistent objects It discusses historical figures such as Suarez Brentano Twardowski and Meinong as well as contemporary figures such as Lewis van Inwagen Thomasson and Zalta The second section focuses on whether ontological questions are trivial to answer and whether ontological debates are merely verbal debates Can there be different concepts of existence or different meanings of exists or other ontological expressions If ontological questions are nontrivial are they nontrivial only if a substantive metaphysical view is true Even if there aren t different senses of exist might there be different modes of being or ways to exist *Ontology After Carnap* Stephan Blatti,Sandra Lapointe,2016 Rudolf Carnap s deflationary approach to ontology is once again attracting considerable interest and support Eleven original essays by leading voices in metametaphysics deepen our understanding of Carnap s contributions to metaontology and explore how his legacy can be mined for insights into the contemporary debate Being Peter Van Inwagen,2023 Being presents and defends a meta ontology and an ontology Peter van Inwagen offers answers to the ontological question What is there and to the questions of meta ontology What is it to be or to exist and How should one attempt to answer the ontological question *Ontology Made Easy* Amie Lynn Thomasson,2015 Existence questions have been topics for heated debates in metaphysics but this book argues that they can often be answered easily by trivial inferences from uncontroversial premises This easy approach to ontology leads to realism about disputed entities and to the view that metaphysical disputes about existence questions are misguided Natural and Artifactual Objects in Contemporary Metaphysics Richard Davies,2019-01-10 What is an object How do we look at them Why do they matter This collection presents a lively timely discussion of natural and artifactual objects considering the relationship between them from a range of philosophical perspectives including the philosophy of biology the metaphysics of space and the philosophy of perception Beginning from the starting point that natural objects are bona fide endowed with some natural border between themselves and everything else while artifactual objects depend on the observation of tacit conventions and may include the ordinary objects of everyday life this volume explores contextualises and interrogates objects Contributors discuss a variety of objects including physical scientific and mental ones as well as things that appear to

question the limits of objecthood including holes Quinean posits and language The very first collection to address this growing topic within analytic philosophy *Natural and Artifactual Objects in Contemporary Metaphysics* represents a highly original work showcasing some of the most important and influential philosophers working in Europe today *Existence* Peter van Inwagen, 2014-04-10 This is a collection of Peter van Inwagen's recent essays on ontology and meta-ontology

Metaontology Mark Tarver, 1985 *Aquinas's Ontology of the Material World* Jeffrey E. Brower, 2014-06-26 What is the nature of the material world And how are its fundamental constituents to be described These questions are of central concern to contemporary philosophers and in their attempt to answer them they have begun reconsidering traditional views about metaphysical structure including the Aristotelian view that material objects are best described as hylomorphic compounds that is objects composed of both matter hyle and form morphe In this major new study Jeffrey E Brower presents and explains the hylomorphic conception of the material world developed by Thomas Aquinas the most influential Aristotelian of the Middle Ages According to Brower the key to understanding Aquinas's conception lies in his distinctive account of intrinsic change Beginning with a novel analysis of this account Brower systematically introduces all the elements of Aquinas's hylomorphism showing how they apply to material objects in general and human beings in particular The resulting picture not only sheds new light on Aquinas's ontology as a whole but provides a wholesale alternative to the standard contemporary accounts of material objects In addition to presenting and explaining Aquinas's views Brower seeks wherever possible to bring them into dialogue with the best recent literature on related topics Along the way he highlights the contribution that Aquinas's views make to a host of contemporary metaphysical debates including the nature of change composition material constitution the ontology of stuff vs things the proper analysis of ordinary objects the truthmakers for essential vs accidental predication and the metaphysics of property possession **An Introduction to Ontology** Nikk Effingham, 2013-08-26 In

this engaging and wide ranging new book Nikk Effingham provides an introduction to contemporary ontology the study of what exists and its importance for philosophy today He covers the key topics in the field from the ontology of holes numbers and possible worlds to space time and the ontology of material objects for instance whether there are composite objects such as tables chairs or even you and me While starting from the basics every chapter is up to date with the most recent developments in the field introducing both longstanding theories and cutting edge advances As well as discussing the latest issues in ontology Effingham also helpfully deals in depth with different methodological principles including theory choice Quinean ontological commitment and Meinongianism and introduces them alongside an example ontological theory that puts them into practice This accessible and comprehensive introduction will be essential reading for upper level undergraduate and post graduate students as well as any reader interested in the present state of the subject **Ontology, Identity, and Modality** Peter van Inwagen, 2001-03-22 This book gathers together thirteen of Peter van Inwagen's essays on metaphysics several of which have acquired the status of modern classics in their field They range widely across such topics as Quine's

philosophy of quantification the ontology of fiction the part whole relation the theory of temporal parts and human knowledge of modal truths In addition van Inwagen considers the question as to whether the psychological continuity theory of personal identity is compatible with materialism and defends the thesis that possible states of affairs are abstract objects in opposition to David Lewis's extreme modal realism A specially written introduction completes the collection which will be an invaluable resource for anyone interested in metaphysics Ontology After Ontotheology Gerrit Jan van der Heiden, 2014 Van der Heiden works largely with present day thinkers such as Badiou Nancy Romano Meillassoux and Agamben and examines contemporary thought as it seeks to recover a sense of the absolute but without recourse to specifically theological underpinnings
