**Clairvoyance and Occult Powers - William Walker Atkinson** Swami Panchadasi, 2019-09-14 All occultists know that man has other senses than the ordinary five although but few men have developed them sufficiently well to use them effectively These super physical senses are known to the occultists as the astral senses The term Astral used so frequently by all occultists ancient and modern is derived from the Greek word astra meaning star It is used to indicate those planes of being immediately above the physical plane The astral senses are really the counterparts of the physical senses of man and are connected with the astral body of the person just as the physical senses are connected with the physical body The office of these astral senses is to enable the person to receive impressions on the astral plane just as his physical senses enable him to receive impressions on the physical plane On the physical plane the mind of man receives only the sense impressions of the physical organs of sense but when the mind functions and vibrates on the astral plane it requires astral senses in order to receive the impressions of that plane and these as we shall see are present Each one of the physical senses of man has its astral counterpart Thus man has in latency the power of seeing feeling tasting smelling and hearing on the astral plane by means of his five astral senses More than this the best occultists know that man really has seven physical senses instead of but five though these two additional senses are not unfolded in the case of the average person though occultists who have reached a certain stage are able to use them effectively Even these two extra physical senses have their counterparts on the astral plane Taken from Clairvoyance and Occult Powers written by William Walker Atkinson under the Pseudonym Swami

Panchadasi      **Clairvoyance and Occult Powers** William Walker Atkinson, 2017-08-12 LESSON I 15 THE ASTRAL SENSES  
The skeptical person who believes only the evidence of his senses The man who has much to say about horse sense Common  
Sense versus Uncommon Senses The ordinary five senses are not the only senses The ordinary senses are not as infallible as  
many think them Illusions of the five physical senses What is back of the organs of physical sense All senses an evolution of  
the sense of feeling How the mind receives the report of the senses The Real Knower behind the senses What the unfolding of  
new senses means to man The super physical senses The Astral Senses Man has seven physical senses instead of merely five  
Each physical sense has its astral sense counterpart What the astral senses are Sensing on the astral plane How the mind  
functions on the astral plane by means of the astral senses The unfolding of the Astral Senses opens up a new world of  
experience to man LESSON II 25 TELEPATHY vs CLAIRVOYANCE The two extra physical senses of man The extra sense of  
the presence of other living things The telepathic sense How man may sense the presence of other living things apart from  
the operation of his ordinary five physical senses This power is strongly developed in savages and barbarians but has become  
atrophied in most civilized men by continued disuse It is now vestigial in civilized man but may be developed by practice  
Animals have this extra sense highly developed and it plays a very important part in their protection from enemies their  
capture of prey etc The strange actions of dogs horses etc explained How the geese saved Rome by reason of this sense All  
hunters have experienced evidences of the existence of this sense on the part of animals The physical telepathic sense How it  
operates Interesting instances of its possession by animals and savage tribes Women possess it strongly The distinction  
between this form of thought transference and clairvoyance LESSON III 34 TELEPATHY EXPLAINED What telepathy means  
The mental process by which one knows at a distance The sending and receiving of waves and currents of thought and  
feeling Thought vibrations and how they are caused The part played by the cerebrum cerebellum and medulla oblongata the  
three brains of man The part played by the solar plexus and other great nervous centres How thought messages are received  
How states of emotional excitement are transmitted to others The Pineal Gland what it is and what it does The important part  
it plays in telepathy and thought transference Mental atmospheres Psychic atmospheres of audiences towns houses stores  
etc Why you are not affected by all thought vibrations in equal measure and strength How thought vibrations are neutralized  
Affinities and repulsions between different thought vibrations Interesting facts concerning telepathy Scientific explanations  
of telepathy LESSON IV 34 SCIENTIFIC TELEPATHY The important investigations of the Society for Psychical Research True  
telepathy and pseudo telepathy how they are distinguished by scientists Strict tests imposed in investigations The celebrated  
Creery Experiments and how they were conducted The elaboration of the guessing game Seventeen cards chosen right in  
straight succession Precautions against fraud or collusion Two hundred and ten successes out of a possible three hundred  
and eighty two Science pronounces the results as entirely beyond the law of coincidences and mathematical probability and  
that the phenomena were genuine and real telepathy Still more wonderful tests Telepathy an incontestable reality A psychic
