Professional Journal of the United States Army ,2019-09 **Wake Up America** David R. Stein,2020-11-11 Few people living in the US today have any real appreciation or understanding of the wholesale sociopolitical changes which have occurred in the US just since the Vietnam War to say nothing about the pre Vietnam War era Until recently the changes have been insinuated into US society so gradually few realize that a significant majority of the changes are so antithetical to fundamental US constitutional principles and values that they threaten the very survival of the US as a constitutional democratic republic Engineered as they were by a covert insidious and subversive Neo Marxist campaign which has been steadily and stealthily growing in the US for more than one hundred years many of the changes have been deliberately designed to foment social discord dysfunction and instability through ethnic identity politics and race baiting designed to pave the way for a full fledged social revolution in which the US constitutional democratic republic would be replaced by a Neo Marxist autocracy The US now faces the distinct possibility of sliding into another bloody civil war or into anarchy and chaos followed by installment of a Neo Marxist autocracy To prevent both of those possibilities significant changes must be made to the US Constitution as well as to civil corporate and criminal laws If nothing is done millions of freedom loving US citizens their children and grandchildren will wake up one day to discover that all of their cherished freedoms and liberties have been taken from them It s now quite possible another bloody civil war will be necessary to ensure that in the immortal words of Abraham Lincoln a government of the people by the people for the people shall not perish from the earth **US**

Foreign Policy and China Adam Bartley,Aiden Warren,2020-11-05 Examining the 21st century presidencies of the United States and their comparative policies strategies attitudes and behaviours towards the People s Republic of China Comprehensively examines the three 21st Century U S presidential administrations and their foreign policies toward ChinaProvides a detailed analysis of Trump s first term in office Focuses on the key security challenges relating to among others Chinese military modernization South and East China Seas the Indo Pacific region the Belt and Road Initiative nuclear modernizationThis book draws critical attention to the core security challenges that have defined U S foreign policy in relation to China and its rise on the international stage During the administrations of Presidents George W Bush and Barack Obama the traditional safeguards and stabilizers to strategic competition were broadly adhered to albeit in some cases not without great difficulty Under the leadership of Donald Trump and China s Xi Jinping however these bulwarks have alarmingly diminished Abrupt departures in engagement platforms and asserting regional defensive postures have become the new norms With brevity and nuance this book provides much needed connective tissue in examining these departures and their antecedents across the Bush Obama and Trump administrations It reveals Washington and Beijing are moving towards a new period where unlike previous ones this one will be characterised by an amplified preponderance of competition and the enhanced probability of conflict and confrontation *The Long Game* Rush Doshi,2021 In The Long

Game Rush Doshi demonstrates that China is in fact playing a long methodical game to replace America as a global hegemon Drawing from a rich base of Chinese primary sources including decades worth of party documents and memoirs by party leaders he traces the basic evolution of Chinese strategy showing how it evolved in response to changes in US policy and the US s position in the world order

Bully of Asia Steven W. Mosher,2017-11-27 The Once and Future Hegemon In a world bristling with dangers only one enemy poses a truly mortal challenge to the United States and the peaceful and prosperous world that America guarantees That enemy is China a country that invented totalitarianism thousands of years ago whose economic power rivals our own that believes its superior race and culture give it the right to universal deference that teaches its people to hate America for standing in the way of achieving its narcissistic dream of world domination that believes in its manifest destiny to usher in the World of Great Harmony which publishes maps showing the exact extent of the nuclear destruction it could rain down on the United States Steven Mosher exposes the resurgent aspirations of the would be hegemon and the roots of China s will to domination in its five thousand year history of ruthless conquest and assimilation of other nations brutal repression of its own people and belligerence toward any civilization that challenges its claim to superiority The na ve idealism of our China hands has lulled America into a fool s dream of engagement with the People s Republic of China and its peaceful evolution toward democracy and freedom Wishful thinking says Mosher has blinded us to the danger we face and left the world vulnerable to China s overweening ambitions Mosher knows China as few Westerners do Having exposed as a visiting graduate student the monstrous practice of forced abortions he became the target of the regime s crushing retaliation His encyclopedic grasp of China s history and its present day politics his astute insights and his bracing realism are the perfect antidote for our dangerous confusion about the Bully of Asia

Greater Penny Mordaunt,Chris Lewis,2021-05-20 We re used to hearing that we live in an age of unprecedented division that the great storms that have engulfed British politics over the past ten years have driven us further apart than ever with no hope of finding common ground Penny Mordaunt and Chris Lewis disagree In this lively and insightful book they argue that although differences of opinion are a natural part of healthy political debate some of our current division is caused by a need for political reform A wave of scandals has corroded public confidence in leadership in all walks of life fuelled by a hyper individualistic social media landscape but by rebuilding public trust we can restore national pride and positive competent politics Greater lays out a plan for post Brexit Britain Delving into our history our institutions and our culture it explains how we arrived at this point and how the British character points the way towards practical national missions It explores Britain s role in the world and how to balance global and local priorities makes the case for the United Kingdom based on the mutuality that binds us and calls for modernising reform in politics government and markets It describes the role of social media in culture wars and calls for a relentless focus on aspiration and a social enterprise revolution Above all it reminds us of the many reasons we have to be optimistic

NATO Reconsidered Wesley B. Truitt,2020-10-27 Is NATO still in the best

interest of the United States This provocative work argues that the focus on NATO distracts the U S from the vital foreign policy challenges of the 21st century most notably China s rise in power Since its beginning in 1949 NATO the North Atlantic Treaty Organization has been at the center of U S foreign policy The alliance was crucial during the decades of the Cold War and the United States collaborated closely with NATO during crises in Kosovo Afghanistan and Libya But does the NATO alliance still serve the best interests of the U S The NATO of today one that has expanded to 30 member countries risks involving the U S in unwanted military activities of the future actions that were not intended in the original Atlantic alliance In addition the real challenges for foreign policy of 21st century are not in Europe but in the expanding economic powerhouses in Asia especially China NATO Reconsidered argues that the changes in world politics in recent decades requires that the more than 70 year old alliance should no longer be the principal focus of U S foreign policy **The National Security Review** ,2015 Summary: Michael Pillsbury's the Hundred-Year Marathon Sarah Fields,2019-02-17 Distinguished defense policy adviser Michael Pillsbury writes his bestselling book The Hundred Year Marathon China s Secret Strategy to Replace America as the Global Superpower In this book Pillsbury writes about the past four decades that the United States has spent playing an indispensable role in helping China build their booming economy develop their military and scientific capabilities and finally take its place on the world stage The United States government did this in the belief that China s rise in the global stage will bring the world diplomacy cooperation and free trade Pillsbury poses this question What if the China Dream is to replace us just as America replaced the British Empire without firing a shot His book The Hundred Year Marathon is an alarming wake up call as the United States faces the greatest national security challenge of our time In this comprehensive look into The Hundred Year Marathon China s Secret Strategy to Replace America as the Global Superpower by Michael Pillsbury you ll gain insight with this essential resource as a guide to aid your discussions Be prepared to lead with the following More than 60 done for you discussion prompts available Discussion aid which includes a wealth of information and prompts Overall brief plot synopsis and author biography as refreshers Thought provoking questions made for deeper examinations Creative exercises to foster alternate if this was you discussions And more Please Note This is a companion guide based on the work The Hundred Year Marathon China s Secret Strategy to Replace America as the Global Superpower by Michael Pillsbury not affiliated to the original work or author in any way and does not contain any text of the original work Please purchase or read the original work first **Confronting China** James H. China and the West Rudyard Griffiths,2019-11-05 The twenty fourth semi annual Munk Debate held on May 9 2019 pits former Assistant to the President for National Security Affairs H R McMaster and Director for Chinese Strategy at the D C based Hudson Institute think tank Michael Pillsbury against former President of the United Nations Security Council Kishore Mahbubani and president of one of China s top independent think tanks the Center for China Globalization Huiyao Wang to debate the threat of China to the liberal international order Increasingly in the West China is being characterized as a threat to the liberal international order one that must be overcome through economic political technological and even military means For those who believe that the policies of the Chinese Communist Party pose a threat to free and open societies the U S and like minded nations must band together to preserve a rules based international order For others this approach spells disaster it ignores the history and dynamics propelling China s rise to superpower status Rather than threatening the post war order China is its best and maybe only guarantor in an era of declining U S leadership increased regional instability and slowing global growth
