The Late Medieval Hebrew Book in the Western Mediterranean Javier del Barco, 2015-09-29 This collection takes the Hebrew book as a focal point for exploring the production circulation transmission and consumption of Hebrew texts in the cultural context of the late medieval western Mediterranean The authors elaborate in particular on questions concerning private vs public book production and collection the religious and cultural components of manuscript patronage collaboration between Christian and Jewish scribes artists and printers and the impact of printing on Iberian Jewish communities Unlike other approaches that take context into consideration merely to explain certain variations in the history of the Hebrew book from antiquity to the present the premise of these essays is that context constitutes the basis for understanding practices and processes in late medieval Jewish book culture Jerusalem, 1000-1400 Barbara Drake Boehm ,Melanie Holcomb, 2016-09-14 Medieval Jerusalem was a vibrant international center home to multiple cultures faiths and languages Harmonious and dissonant voices from many lands including Persians Turks Greeks Syrians Armenians Georgians Copts Ethiopians Indians and Europeans passed in the narrow streets of a city not much larger than midtown Manhattan Patrons artists pilgrims poets and scholars from Christian Jewish and Islamic traditions focused their attention on the Holy City endowing and enriching its sacred buildings creating luxury goods for its residents and praising its merits This artistic fertility was particularly in evidence between the eleventh and fourteenth centuries notwithstanding often devastating circumstances from the earthquake of 1033 to the fierce battles of the Crusades So strong a magnet was Jerusalem that it drew out the creative imagination of even those separated from it by great distance from as far north as Scandinavia to as far east as present day China This publication is the first to define these four centuries as a singularly creative moment in a singularly complex city Through absorbing essays and incisive discussions of nearly 200 works of art Jerusalem 1000 1400 Every People Under Heaven explores not only the meaning of the city to its many faiths and its importance as a destination for tourists and pilgrims but also the aesthetic strands that enhanced and enlivened the medieval city that served as the crossroads of the known world Routledge Handbook on the Sciences in Islamicate Societies Sonja Brentjes, 2023-01-24 The Routledge Handbook on the Sciences in Islamicate Societies provides a comprehensive survey on science in the Islamic world from the 8th to the 19th century Across six sections a group of subject experts discuss and analyze scientific practices across a wide range of Islamicate societies The authors take into consideration several contexts in which science was practiced ranging from intellectual traditions and persuasions to institutions such as courts schools hospitals and observatories to the materiality of scientific practices including the arts and craftsmanship Chapters also devote attention to scientific practices of minority communities in Muslim majority societies and Muslim minority groups in societies outside the Islamicate world thereby allowing readers to better understand the opportunities and constraints of scientific practices under varying local conditions Through replacing Islam with Islamicate societies the book opens up ways to explain similarities and

differences between diverse societies ruled by Muslim dynasties This handbook will be an invaluable resource for both established academics and students looking for an introduction to the field It will appeal to those involved in the study of the history of science the history of ideas intellectual history social or cultural history Islamic studies Middle East and African studies including history and studies of Muslim communities in Europe and South and East Asia *The Jewish Ghetto and the Visual Imagination of Early Modern Venice* Dana E. Katz, 2017-08-18 This book explores how the Jewish ghetto engaged the sensory imagination of Venice in complex and contradictory ways to shape urban space and reshape Christian Jewish relations **Bulletin of Judaeo-Greek Studies**, 2003 *Toward a Global Middle Ages* Bryan C. Keene, 2019-09-03 This important and overdue book examines illuminated manuscripts and other book arts of the Global Middle Ages Illuminated manuscripts and illustrated or decorated books like today's museums preserve a rich array of information about how premodern peoples conceived of and perceived the world its many cultures and everyone's place in it Often a Eurocentric field of study manuscripts are prisms through which we can glimpse the interconnected global history of humanity *Toward a Global Middle Ages* is the first publication to examine decorated books produced across the globe during the period traditionally known as medieval Through essays and case studies the volume's multidisciplinary contributors expand the historiography chronology and geography of manuscript studies to embrace a diversity of objects individuals narratives and materials from Africa Asia Australasia and the Americas an approach that both engages with and contributes to the emerging field of scholarly inquiry known as the Global Middle Ages Featuring more than 160 color illustrations this wide ranging and provocative collection is intended for all who are interested in engaging in a dialogue about how books and other textual objects contributed to world making strategies from about 400 to 1600 *Thy Father's Instruction* Naomi Feuchtwanger-Sarig, 2021-12-06 The Nuremberg Miscellany Germanisches Nationalmuseum Nürnberg Bibliothek 8 Hs 7058 Rl 203 is a unique work of scribal art and illumination Its costly parchment leaves are richly adorned and illustrated with multicolour paint and powdered gold It was penned and illustrated in southern Germany probably Swabia in 1589 and is signed by a certain Eliezer b Mordechai the Martyr The Miscellany is a relatively thin manuscript In its present state it holds a total of 46 folios 44 of which are part of the original codex and an additional bifolio that was attached to it immediately or soon after its production The book is a compilation of various Hebrew texts most of which pertain to religious life Others are home liturgies Biblical exegeses comments on rites and customs moralistic texts homiletic and ethical discourses and an extensive collection of home liturgies its major part being dedicated to the life cycle The unparalleled text compilation of the Nuremberg Miscellany on the one hand and the naive untrained illustrations on the other hand are puzzling Its illustrations are hardly mindful of volume depth or perspective and their folk art nature suggests that an unprofessional artist possibly even the scribe himself may have executed them Whoever the illustrator was his vast knowledge of Jewish lore unfolds layer after layer in a most intricate way His sharp eye for detail renders the images he executed a valid representation of

contemporary visual culture The iconography of the Nuremberg Miscellany with its 55 decorated leaves featuring 25 text illustrations falls into two main categories biblical themes and depictions of daily life both sacred and mundane While the biblical illustrations rely largely on artistic rendering and interpretation of texts the depictions of daily life are founded mainly on current furnishings and accoutrements in Jewish homes The customs and rituals portrayed in the miscellany attest not only to the local Jewish Minhag but also to the influence and adaptation of local Germanic or Christian rites They thus offer first hand insights to the interrelations between the Jews and their neighbors Examined as historical documents the images in the Nuremberg Miscellany are an invaluable resource for reconstructing Jewish daily life in Ashkenaz in the early modern period In a period from which only scanty relics of Jewish material culture have survived retrieving the pictorial data from images incorporated in literary sources is of vital importance in providing the missing link Corroborated by similar objects from the host society and with descriptions in contemporary Jewish and Christian written sources the household objects as well as the ceremonial implements depicted in the manuscript can serve as effective mirrors for the material culture of an affluent German Jewish family in the Early Modern period The complete Nuremberg Miscellany is reproduced in the appendix of this book Brokering Empire E. Natalie Rothman, 2012-03-27 Explores how diplomatic interpreters converts and commercial brokers mediated and helped define political linguistic and religious boundaries between the Venetian and Ottoman empires in the sixteenth and seventeenth centuries Author's Web site <http://www.english.umd.edu/rothman/>, 2009

Perspectives, 2007 The Cambridge History of Judaism: Volume 5, Jews in the Medieval Islamic World Phillip I. Lieberman, 2021-09-02 Volume 5 examines the history of Judaism in the Islamic World from the rise of Islam in the early sixth century to the expulsion of Jews from Spain at the end of the fifteenth This period witnessed radical transformations both within the Jewish community itself and in the broader contexts in which the Jews found themselves The rise of Islam had a decisive influence on Jews and Judaism as the conditions of daily life and elite culture shifted throughout the Islamicate world Islamic conquest and expansion affected the shape of the Jewish community as the center of gravity shifted west to the North African communities and long distance trading opportunities led to the establishment of trading diasporas and flourishing communities as far east as India By the end of our period many of the communities on the other side of the Mediterranean had come into their own while many of the Jewish communities in the Islamicate world had retreated from their high water mark A Companion to Mediterranean History Peregrine Horden, Sharon Kinoshita, 2014-01-21 A Companion to Mediterranean History presents a wide ranging overview of this vibrant field of historical research drawing together scholars from a range of disciplines to discuss the development of the region from Neolithic times to the present Provides a valuable introduction to current debates on Mediterranean history and helps define the field for a new generation Covers developments in the Mediterranean world from Neolithic times to the modern era Enables fruitful dialogue among a wide range of disciplines including history archaeology art literature and anthropology **The Schizoid Nature of Modern**
