Pdf Mediated Moms Contemporary Challenges Motherhood:

Mediated Moms Heather L. Hundley, Sara E. Hayden, 2016 Images of good mothers saturate the media yet so too do images of mothers who do not fit this mold. Numerous scholars have addressed bad mothers in the media arguing that these images are a necessary counterpoint that serves to buttress the good mother myth. The authors in this volume explore how images of mothers have expanded beyond the good/bad dichotomy simultaneously and sometimes paradoxically serving to reinforce, fracture and/or transcend the ideology of good motherhood. Contents: Sara E. Hayden, Heather L. Hundley, Challenging the motherhood myth; Suzy D. Enbeau, Patrice M. Buzzanell, Counter intensive mothering: exploring transgressive portrayals and transcendence on *Mad Men*; Elizabeth Fish, Hatfield, Motherhood and mental health; Carrie Mathison's *Homeland* pregnancy; Katherine J. Lehman, Addicted to danger: The fierce, flawed mothers of *nurse Jackie* and *Weeds*; Susana Martínez-Guillem, Lisa A. Contemporary Family Law Susan S. M. Edwards, Judith Bray, 2025-01-21 Taking a fresh and modern approach, *Contemporary Family Law: Principles and Practice* gives students all the information they need to develop a clear understanding of this fascinating area of the law. Covering the very latest developments in family law, each chapter uses contemporary cases as a window to introducing core legal concepts, principles and developments emphasising the dynamism and evolving nature of family law in which practitioners, campaigners, law reformers and students all play their part. Key features include: Developments in family law are considered not only from a vantage point of judicial decision making but also from the perspective of the contribution made by solicitors, barristers and experts. This encourages students to develop a sense of their own potential agency when as future practitioners they represent their clients and engage in law reform. In considering legal argument and case determination, the book places equality front and centre, including access to justice. Each chapter provides further reading with online links and URLs and a set of self-test questions including problem scenarios and discursive essay questions. Each form of assessment reflects the levels of educational attainment and mirrors testing techniques relevant to academic examination and legal, professional and vocational practice courses. This uniquely contemporary textbook will be essential reading for all students of family law.

Heading Home Shani Orgad, 2019-01-08

Women in today's advanced capitalist societies are encouraged to lean in. The media and government champion women's empowerment. In a cultural climate where women can seemingly have it all, why do so many successful professional women, lawyers, financial managers, teachers, engineers, and others give up their careers after having children and become stay-at-home mothers? How do they feel about their decision, and what do their stories tell us about contemporary society? *Heading Home* reveals the stark gap between the promise of gender equality and women's experience of continued injustice. Shani Orgad draws on in-depth personal and profoundly ambivalent interviews with highly educated London women who left paid employment to take care of their children while their husbands continued to work in high-powered jobs. Despite identifying the structural forces that maintain gender inequality, these women still struggle to articulate their decisions outside the narrow cultural ideals that devalue motherhood and individualize success and failure. Orgad juxtaposes these stories with media and policy depictions of women, work, and family, detailing how even as their experiences fly in the face of fantasies of work-life balance and marriage as an egalitarian partnership, these women continue to interpret and judge themselves according to the ideals that are failing them. Rather than calling for women to transform their feelings and behavior, *Heading Home* argues that we must unmute and amplify women's desire, disappointment, and rage and demand social infrastructure that will bring about long-overdue equality both at work and at home.

Like Mother, Like Daughter? Armstrong, Jill, 2019-03-06. Women are encouraged to believe that they can occupy top jobs in society by the example of other women thriving in their careers. Who better to be a role model for career success than your mother? Paradoxically, this book shows that having a mother as a role model even for graduates of top universities does not predict daughters progressing in their own careers. It finds that mothers with careers, whilst highly influential in their daughters' choice of career path, rarely mentor their daughters as they progress. This is partly explained by quiet ambition, the tendency of women to be modest about their achievements. Bigger issues are the twin pressures from contemporary motherhood and workplace culture that ironically lead career women's daughters to believe that being a good mother means working part-time. This stalls career progress. Based on a large cross-generational qualitative sample, this book offers a timely and original perspective on the debate about gender equality in leadership positions.

From the standpoint of the development of adoption in England and Wales and the changes currently taking place there it considers the process as it has evolved in other countries. It also identifies themes of commonality and difference in the experience of adoption in a common law context comparing and contrasting this with the experience under civil law and in Islamic countries and with that of indigenous people. This book includes new chapters examining adoption in Russia, Korea and Romania. Further it uses the international conventions and the associated ECtHR case law to benchmark developments in national law policy and practice and to facilitate a cross cultural comparative analysis.

The War on Moms Sharon Lerner,2010-03-25 A stinging account of how public policy and private businesses have failed to adapt to working mothers Jennifer Ludden NPR Why life is harder on American families than it s been in decades the book that takes the blame away from moms and puts it where it really belongs Pressed for time and money unable to find decent affordable daycare wracked with guilt at falling short of the mythic supermom ideal working and non working American mothers alike have it harder

today than they have in decades and they are worse off than many of their peers around the world Why Because they re raising their kids in a family unfriendly nation that virtually sets them up to fail The War on Moms exposes the stress put on families by an outdated system still built around the idea that women can afford not to work It tells the truth that overworked stressed out American moms need to hear that they re not alone and they re not to blame Exposes a lack of reasonable and flexible work opportunities as the real cause of the supposed rift between employed and stay at home mothers Explodes the myths about supermoms slacker dads opt out moms bootstrap moms daycare options and make money from home scams Uncovers the widespread brutal reality of having no paid maternity leave Offers portraits of real women across social classes and across the country who are struggling with issues that will strike a familiar chord with most Americans Explains why American women have it hard and why it s not going to get any easier until the country dramatically changes course The War on Moms turns the mommy wars debate on its head by arguing that a mother s real enemy is not other women but a nationwide indifference to the cultural and economic realities facing parents and families in the United States today

Lane,2022-04-26 Theologian Erin S Lane overturns dominant narratives about motherhood and inspires women to write their own stories Is it possible to do something more meaningful than mothering As a young Catholic girl who grew up in the American Midwest on white bread and Jesus Erin S Lane was given two options for a life well lived Mother or Mother Superior She could marry a man and mother her

own children or she could marry God so to speak and mother the world's children. Both were good outcomes for someone else's life. Neither would fit the shape of hers. Interweaving Lane's story with those of other women including singles and couples, stepparents and foster parents, the infertile and the ambivalent, Someone Other Than a Mother challenges the social scripts that put moms on an impossible pedestal and shame childless women and nontraditional families for not measuring up. You may have heard these lines before: Motherhood is the toughest job. This script diminishes the work of non-moms and pressures moms to make parenting their full-time gig. It'll be different with your own. This script underestimates the love of non-biological kin and pushes unfair expectations onto nuclear families. Family is the greatest legacy. This script turns children into the ultimate sign of a woman's worth and discounts the quieter ways we leave our mark. With candor and verve, Someone Other Than a Mother tears up the shaming social scripts that are bad for moms and non-moms alike and rewrites the story of a life well lived, one in which purpose is bigger than body parts, identity is fuller than offspring, and legacy is so much more than DNA. [A Mother's Place](#) Susan Chira, 1998-04-15. Written by a leading New York Times journalist and mother of two, this book is at once a devastating expose of the distortions that have wrongly convinced many women that good mothers stay at home and an engaging personal account of how women can rewrite the rules of motherhood and defy the experts by striking the balance that best suits them and their children.
