**The Morality of Self-Defense and Military Action** David B. Kopel, 2017-02-16 Shedding new light on a controversial and intriguing issue this book will reshape the debate on how the Judeo Christian tradition views the morality of personal and national self defense Are self defense national warfare and revolts against tyranny holy duties or violations of God's will Pacifists insist these actions are the latter forbidden by Judeo Christian morality This book maintains that the pacifists are wrong To make his case the author analyzes the full sweep of Judeo Christian history from earliest times to the present combining history scriptural analysis and philosophy to describe the changes and continuity of Jewish and Christian doctrine about the use of lethal force He reveals the shifting patterns of thought in both religions and presents the strongest arguments on both sides of the issue The book begins with the ancient Hebrews and Genesis and covers Jewish history through the Holocaust and beyond The analysis then shifts to the story of Christianity from its origins through the Middle Ages and the Reformation up the present day Based on this scrutiny the author concludes that contrary to popular belief the legitimacy of self defense is strongly supported by Judeo Christian scripture and commentary by philosophical analysis and by the respect for human dignity and human rights on which both Judaism and Christianity are based *Discerning Ethics*

Hak Joon Lee, Tim Dearborn, 2020-02-25 The number of ethical issues that demand a response from Christians today is almost dizzying How can Christians navigate such matters With an unflinching yet irenic approach this volume invites engagement with the biggest ethical issues by drawing on real life experiences and offering a range of responses to some of the most challenging moral questions confronting the church today *The Warrior and the Pacifist* Lester R. Kurtz, 2018-05-23 This book looks at two contradictory ethical motifs the warrior and the pacifist across four major faith traditions Buddhism Judaism Christianity and Islam and their role in shaping our understanding of violence and the morality of its use The Warrior and the Pacifist explores how these faith traditions which now mutually inhabit our life spaces bring with them across the millennia the moral teachings that have traveled from prehistoric humanity embedded in the beliefs rituals and institutions socially constructed by humans to deal with ultimate concerns core aspects of daily personal and social life and life transitions *La resistenza ebraica in Europa* Daniele Susini, 2021-03-08T00:00:00+01:00 Perch gli ebrei non si sono difesi Perch non hanno opposto resistenza Domande come queste sono molto frequenti in particolare nei ragazzi che si accostano allo studio della Shoah e l'immagine degli ebrei portati come pecore al macello vittime inermi della barbarie nazista quella prevalente nel senso comune Come se il popolo ebraico fosse una massa omogenea un gregge che senza reagire ha soggiaciuto alla violenza del proprio carnefice L'assoluta necessit di non dimenticare i morti e i campi di sterminio di fare in modo che la memoria una volta scomparsi i testimoni diretti resti sempre viva e vigile ha fatto s che le celebrazioni abbiano sempre privilegiato gli esiti dello sterminio senza guardare a cosa fecero gli ebrei in quegli anni in reazione alle politiche liberticide e poi sempre pi liquidatorie dei regimi nazista e fascista Il libro di Daniele Susini abbraccia il punto di

vista delle vittime che prima di diventare tali in molti casi hanno praticato varie strategie di resistenza Dalla resistenza armata a quella spirituale e culturale fino alle innumerevoli forme di salvataggio e autoaiuto attuate nei ghetti e perfino nei campi di sterminio sono tante le sfaccettature del vasto e potente movimento di opposizione al tentativo di annientamento morale e materiale del popolo ebraico in particolare nei paesi dell'Est dove il fenomeno è stato più diffuso e importante. Guardare agli ebrei come a individui che in forme diverse minime o esplicite hanno lottato contro la violenza inaudita e senza precedenti che li aveva travolti aiuta oggi ad arricchire con il racconto di vite attive e resistenti la memoria della più immane tragedia del Novecento evitando che essa venga ridotta a un tragico bilancio di morti che rischia di scivolare in un passato sempre più lontano dalle giovani generazioni *Jewish Child Soldiers in the Bloodlands of Europe* David M.

Rosen, 2022-03-03 This book is about the experiences of Jewish children who were members of armed partisan groups in Eastern Europe during World War II and the Holocaust. It describes and analyzes the role of children as activists, agents, and decision makers in a situation of extraordinary danger and stress. The children in this book were hunted like prey and ran for their lives. They survived by fleeing into the forests and swamps of Eastern Europe and joining anti-German partisan groups. The vast majority of these children were teenagers between ages 11 and 18, although some were younger. They were, by any definition, child soldiers, and that is the reason they lived to tell their tales. The book will be of interest to general and academic audiences. There is also great interest in children and childhood across disciplines of history and the social sciences. It is likely to spark considerable debate and interest since its argument runs counter to the generally accepted wisdom that child soldiers must first and foremost be seen as victims of their recruiters. The argument of this book is that time, place, and context play a key role in our understanding of children's involvement in war and that in some contexts, children under arms must be seen as exercising an inherent right of self defense. **Mind the Gap**, 2009 *Faith in the Face of Militarization*

Jude Lal Fernando, 2021-04-05 What does believing mean in the face of empire and militarization? These essays articulate the critical and liberating consciousness shared by oppressed peoples across the world, arising from a faith in the God of the oppressed, expressed in radically diverse ways and resisting the imperialist deities of materialism, read economic growth, racism, and militarization that falsely appear as the saviors of humanity. The authors confront these false gods which form the modern empire worshiped by the most dominant militarized states in the world and followed by their allied states, even in the midst of a worldwide pandemic. Out of the eleven articles, two are written by critical political analysts with an anti-colonial lens while recognizing the importance of faith in resistance. The rest are written by theologians who critically reflect on their faith within the context of empire and militarization in their societies. Militarization is among the most brutal forms of oppression on the resisting peoples. The theologies that have emerged from critical reflections on their collective experiences are grounded on a material spirituality as opposed to materialistic, racist, and militaristic godlessness. This collection has emerged out of creative and transformative practices in Africa, Asia, Latin America, the Pacific, and the US. The essays are

**War and Its Discontents** J. Patout Burns,1996-04-01 This volume examines the limits Islam Judaism and Christianity have set for the use of coercive violence It probes the agreements and disagreements of these major religious traditions on pacifism the abjuration of all force and quietism the avoidance of force unless certain stringent conditions are met The distinguished contributors examine the foundations for nonviolence in each religion criticize the positions each religion has taken address the inherent challenges nonviolence poses and evaluate the difficulty of practicing nonviolence in a secular society The concluding essay defines the common ground isolates the points of conflict and suggests avenues of further inquiry The most important contribution this volume makes is to demonstrate that no Western religious tradition provides a basis for the glorification of violence Rather each accepts warfare as a regretted necessity and sets strict limits on the use of force This work offers new insights for those interested in the ethics of warfare peace studies religious traditions and international affairs **The Primitive Christian's Estimate of War and Self-Defense (Classic Reprint)** Josiah W. Leeds,2015-07-12 Excerpt from The Primitive Christian s Estimate of War and Self Defense Let us now bring this question of

non resistance to the practical test the experience of the primitive ages of the Christian Church I take for granted that no one can doubt the following positions of principle and fact First The Christians had a dear right to the enjoyment of all the privileges and advantages of the communities in which they lived and this right is equally sustained by reason natural justice and religion Second The heathen rulers were utterly unjustifiable in depriving the primitive Christians of those privileges and advantages still less had they a right to persecute and destroy them for being Christians Third The heathen rulers acted the part of despots and oppressors to the primitive Christians Fourth The primitive Christians were subjected for their faithfulness most wantonly unjustly and cruelly to sufferings scarcely surpassed by those predicted to the Jews in case of their disobedience If ever men had a right to rebel and employ an armed resistance it was these primitive disciples Their enemies were equally the enemies of God himself The rights invaded were not the creations of society and protected by human constitutions but were the gift of God and secured by the New Testament the great charter of Christian rights Yet they did not rebel they did not resort to an armed resistance And why not Simply because they knew that such means were inconsistent with the Christian character Were they restrained by fear No one can allege that Were they restrained by calculations of the probabilities of success and failure None can suspect that Were they restrained by personal and selfish considerations Who is so ignorant or so reckless of truth as to bring such an accusation against men who counted life liberty property domestic enjoyments and social intercourse as the very dust under their feet The primitive Christians did not then resist their oppressors by rebellion and with the sword simply because they knew these to be Unchristian Means Grimke About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Who Would Jesus Kill?
