Pdf Nile Waters Saharan Sands Geomorphologist:

Nile Waters, Saharan Sands Martin Williams,2015-12-23 In this book the author describes in simple non technical terms the adventures he has experienced during his work as an earth scientist in some of the remote parts of the arid and semi arid world His aim in writing this concise account of some of the work he has been involved in over the past fifty years is to try to convey to the non specialist some of the excitement and fun involved in fieldwork in the drier regions of the world His studies of the soils landforms and the recent geological history of arid and semi arid regions have taken Martin Williams to some remarkable places in Africa Asia Australia and the Middle East Not only are the landscapes themselves often stunningly beautiful but the contact with people from quite different backgrounds and cultures has been an enriching experience His work has taken him to places far off the beaten track whether it be the rugged mountains of Ethiopia and northern China the sandy deserts of the Sahara and Rajasthan or the great river valleys of Somalia central India and the Nile The chapters that follow are not intended to form a coherent chronological narrative although they do appear in rough chronological order They should rather be viewed as vignettes or brief evocative descriptions much as in the discursive tradition of the wandering Irish storytellers Acting on the principle that it is not necessary to be solemn to be serious the author aims to entertain as well as to instruct

The Nile Basin Martin Williams,2019-01-03 The Nile Basin contains a record of human activities spanning the last million years However the interactions between prehistoric humans and environmental changes in this area are complex and often poorly understood This comprehensive book explains in clear non technical terms how prehistoric environments can be reconstructed with examples drawn from every part of the Nile Basin Adopting a source to sink approach the book integrates events in the Nile headwaters with the record from marine sediment cores in the Nile Delta and offshore It provides a detailed record of past environmental changes throughout the Nile Basin and concludes with a review of the causes and consequences of plant and animal domestication in this region and of the various prehistoric migrations out of Africa into Eurasia and beyond A comprehensive overview this book is ideal for researchers in

geomorphology climatology and archaeology **The River Nile** Rushdi Said,1993 Hardbound This multidisciplinary book by the author of The Geology of Egypt is the result of many years of research It attempts to reconstruct the history of the River Nile from its origins to its present shape and regimen and also to ascertain the amount of water which has been carried by the river during the course of its history It examines the manner in which this water was utilized in the past and the ways in which it will have to be used in future if the inhabitants of the river basin are to cope with their anticipated needs Part One traces the geological history of the Nile from the time it started to excavate its valley some six million years ago until the present shape was assumed during the wet period which affected Africa after the retreat of the ice of the last glacial age some 10 000 years ago Part Two deals with the amount of water that the river and its tributaries carry at present and have carried in the past Part Three
