Agroecology, Ecosystems, and Sustainability Nouredine Benkeblia, 2014-11-20 We hear a lot about how agriculture affects climate change and other environmental issues but we hear little about how these issues affect agriculture When we look at both sides of the issues we can develop better solutions for sustainable agriculture without adversely affecting the environment Agroecology Ecosystems and Sustainability explores a modern vision of ecology and agricultural systems so that crop production can be sustainably developed without further environmental degradation With contributions from experts from more than 20 countries the book describes how to make the transition to modern agroecology to help the environment It examines the global availability of natural resources and how agroecology could allow the world population to reach the goal of global sustainable ecological agricultural and food production systems The book discusses important principles that regulate agroecological systems including crop production soil management and environment preservation Making the link between theory and practices the book includes examples of agroecology such as an interdisciplinary framework for the management of integrated production and conservation landscapes and the use of mechanized rain fed farming and its ecological impact on drylands An examination of how ecology and agriculture can be allied to ensure food production and security without threatening our environment the text shows you how natural resources can be used in a manner to create a symbiosis to preserve ecological systems and develop agriculture

The Way We Eat Peter Singer, Jim Mason, 2006-05-02 An investigation of the food choices people make and practices of the food producers who create this food for us leading to a discussion of how we might put more ethics into our shopping carts

The Geek Manifesto Mark Henderson, 2012-05-10 Whether we want to improve education or cut crime to enhance public health or to generate clean energy we need the experimental methods of science the best tool humanity has yet developed for working out what works Yet from the way we are governed to the news we are fed by the media we are let down by a lack of understanding and respect for its insights and evidence In *The Geek Manifesto* Mark Henderson explains why and how we need to entrench scientific thinking more deeply into every aspect of our society A new movement is gathering Let's turn it into a force our leaders cannot ignore This edition includes an appendix *A Geek Manifesto for America* by David Dobbs

Advances in Food and Beverage Labelling Paul Berryman, 2014-12-03 *Advances in Food and Beverage Labelling* reviews recent advances in labelling research and regulation covering issues such as nutrition and hazard information traceability health claims and standardisation as well as new labelling technologies and consumer issues The EU Food Information Regulation will come into force in December 2014 and the book is designed to provide timely and useful information to manufacturers in this area as well as on a global scale Part one covers the different types of information that can or must be present on a food label Part two looks at recent developments in food labelling technology regulations and enforcement Brings together contributions from industry trade bodies government and academia Offers timely advice for those concerned with the legal framework for food labelling with
