Procrastination also prevents you from experiencing the wonderful life and happiness that you deserve. Instead of being successful, it makes you feel defeated and could even convince you to think of yourself as a mere failure. Instead of achieving prosperity, you might end up feeling rejected and lonely. Of course, there are many other adverse effects of procrastinating. It also affects your relationship with other people in a bad way. Regardless of what reasons you may have for getting rid of procrastination, one thing is for sure: The habit of procrastinating does not do you any good in life. Therefore, you have to get rid of it immediately. There is so much beauty in a life that is free from procrastination. This is all the more reason why you should do your best to get rid of it completely. Unfortunately, there are many people who get stuck in the procrastination habit loop. The problem is that unlike other bad habits, procrastination is a lot trickier to get rid of. Nonetheless, it is possible and definitely doable to overcome procrastination as long as you have the right knowledge. At some point in life, every one of us falls into the pit of procrastination. The problem is when it gets so critical that it affects areas of our daily life. We don't feel like we have the time to do the things we want or that we'll never realize our dreams. Regardless of the stimuli, the effects of procrastination are known to be mostly negative. They're always linked with bad performance, time wasting, missing opportunity, and generally feeling bad about oneself. The moment someone procrastinates, less important tasks occupy the position of tasks that are more important. However, there is more than simply not finishing tasks you need to do on time. wait until the last minute before they start or do something As a result there are times when they fail to meet deadlines or they submit late They will always delay what can be done at present and choose to do it later It starts early unconsciously during a one's childhood Try to recall how your studying habits were back then Do you often think that there's more time only to realize that you have underestimated time and end up cramming Regardless of the importance of a task you always take it lightly and deal with it at a later time Try looking at your home is it organized or is it in chaos Do you have difficulty putting things back to where you took them How does your closet look like Are the clothes neatly folded or is it all mixed up There is a good chance that you have said the words later more often than you should Maybe it's time to analyze such habits and patterns seriously They might be signs all along that procrastination has been negatively affecting your life Don't procrastinate in changing your habits Now is the best time to put things in order Here Is A Preview Of What You'll Learn Procrastination in its Simplest Form How it Develops Procrastinator Quiz What Type of Procrastinator Are You Why People Procrastinate Chain effect Say Goodbye to the Bad Habit Accountability Partner Much much more **Stop Procrastination** David L. Jones, 2019-09-29 If you're trying to achieve something great in life you can't do it without breaking the habit of procrastination If there's anything that has killed the dreams visions hopes and aspirations of millions of people it is procrastination Procrastination has imprisoned the lives of many individuals preventing them from maximizing their potential In fact many companies are performing below their potential due to the problem of procrastination Procrastination is simply the act of delaying or postponing important things and focusing on the less important ones Instead of getting hard challenging and difficult tasks done you just procrastinate doing them You're busy but not productive As a result you accomplish very little over a period of time Through this book you'll be able to unravel the secrets and strategies to overcome procrastination in your life The following are some of the things you will learn What procrastination is What procrastination is not The Pleasure Principle How the habit of procrastination forms What people procrastinate on Two types of procrastinators Excuses of procrastinators Why people procrastinate Psychological effects of procrastination How procrastination affects productivity How to break the habit of procrastination Easy to apply strategies to avoid procrastination Productivity hacks of highly successful people According to the Pareto Principle 20% of the things you do will generate 80% of the results The top 20% of the things you do are the vital few and the bottom 80% are the trivial many To get a higher return on the investment of your time and energy you have to focus on the vital few first rather than on the trivial many The challenging part is that the vital few are the most difficult unpleasant and boring tasks So most people tend to procrastinate on them But what would happen if we overcame procrastination in our lives Many people will take action do what they are supposed to do and become much more successful than they currently are Zig Ziglar said that All bad habits start slowly and gradually and before you know you have the habit the habit has you Conquer your bad habits or they will conquer you The habit of procrastination wastes time energy and resources You miss opportunities and deliver late

Procrastination causes stress anxiety and guilt which further continues the cycle of procrastination When you procrastinate you lag behind in your career and personal life And procrastination is not just an act but a habit Slowly but gradually you develop the self sabotaging and self destructive habit of procrastination That means you start procrastinating before you know it It becomes your second nature Whatever you do you just seem to procrastinate and do not know what to do about it Most people can't help themselves when it comes to procrastination It is almost impossible to overcome procrastination by themselves But don't worry If you have the chronic habit of procrastinating you can get rid of it Just like any habit the habit of procrastination can be formed and broken All you have to do is to identify the triggers create an alternative response and then reward yourself for responding differently When you do this over a period of time you will realize that you are slowly becoming self proactive
