**Moving from Fear to Freedom** Grace Fox, 2007-08-01 Fear was not part of God's original agenda for his creation. It slithered onto the scene when Adam and Eve sinned, causing a tear in their relationship with God. And even though fear touches every life and can still debilitate people today, the news isn't all bad. Popular speaker and author Grace Fox demonstrates how believers can face their fear and actually let it be a catalyst for change. Readers will learn how to stop hiding from God and instead develop a deeper relationship with Him. This is what she calls the upside of fear. When we cry out to God for help, He answers, and we experience Him in new ways. Each chapter highlights a particular area where readers can begin to experience freedom from fears about their personal identity, their finances, their kids, the future, and more.

*Rethinking Online Anti-Gender Hate Speech* Moa Bladini, Eva-Maria Svensson, 2025-05-19 Providing an innovative approach to understanding and addressing anti-gender hate speech, this book focuses on its effects on everyday life, how it is handled within legal frameworks, and how it challenges democratic principles. Unlike previous research, which is often limited to currently regulated forms of hate speech, this book is focused on gender-based hate speech, demonstrating its broader social and ideological impacts. By contextualising freedom of expression within democratic values, it offers a new framework for addressing anti-gender hate speech as a threat to both individual dignity and societal diversity. Through this lens, the authors highlight how anti-gender hate speech represents not only a breach of individual rights but also a structural challenge to democracy, requiring responses that reflect these dual dimensions. The book provides a unique contribution to both legal scholarship and democratic theory by rethinking the balance between gender equality and freedom of expression as cooperative as well as inherently contextual and inclusive. *Rethinking Online Anti-Gender Hate Speech* will be of great interest to students and scholars of Criminology, Law, Media and Communication, Sociology, and Women's and Gender Studies.

*International Journal of Education Through Art*, 2007 **Reframing Police Education and Freedom in America** Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community-based training model with significant civilian oversight. The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education, for it is they who must both support and be served by their police. The police must be role models for society, demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community. Ultimately, the quality of police training and the public's safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community's trust in its police. The issues of police recruitment, education, and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement. Several incidents, including most notably George Floyd's murder by police, have sparked new training initiatives regarding police de-escalation and community engagement. At the same time, the proliferation of gun

violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police

**The Emotionally Intelligent Online Tutor** Andrew Youde,2020-03-20 The Emotionally Intelligent Online Tutor foregrounds the tutor within online and blended learning environments and focusses on desirable skills qualities and attributes for effective tutoring It analyses these qualities in relation to prominent psychological constructs such as emotional intelligence and the exploration of their value in practice This book is focussed on the tutoring of adult learners undertaking study within higher education commonly on a part time basis whilst studying vocationally relevant degree programmes However the contents are applicable and generalisable to those tutoring within informal environments such as Massive Open Online Courses Prominent social constructivist models of e learning are critiqued with alternative actions provided for tutors now practicing in a digital age The book provides a conceptual model that represents an interpretation of effective practice in a blended learning context This book will be of great interest for academics scholars and postgraduate students in the field of education and for e tutors delivering online and blended courses Furthermore it will be useful for those undertaking teacher training psychology and counselling courses

*Regulating Free Speech in a Digital Age* David Bromell,2022-02-11 Hateful thoughts and words can lead to harmful actions like the March 2019 terrorist attack on mosques in Christchurch New Zealand In free open and democratic societies governments cannot justifiably regulate what citizens think feel believe or value but do have a duty to protect citizens from harmful communication that incites discrimination active hostility and violence Written by a

public policy advisor for fellow practitioners in politics and public life this book discusses significant practical and moral challenges regarding internet governance and freedom of speech particularly when responding to content that is legal but harmful Policy makers and professionals working for governmental institutions need to strike a fair balance between protecting from harm and preserving the right to freedom of expression And because merely passing laws does not solve complex social problems governments need to invest not just regulate Governments big tech and the private sector civil society individual citizens and the fourth estate all have roles to play and counter speech is everyone s responsibility This book tackles hard questions about internet governance hate speech cancel culture and the loss of civility and illustrates principled pragmatism applied to perplexing policy problems Furthermore it presents counter speech strategies as alternatives and complements to censorship and criminalisation      Terrorism and Homeland Security Jonathan Randall White,2006 Strives to discuss the ost sophisticated theories by the best terrorist analysts in the world while still focusing on the domestic and international threats of terrorism and the basic security issues that surround terrorism today      *Middle East Report* ,2008
