Doron Goldbarsht, Louis de Koker, 2024-09-10 Embark on a journey through the dynamic landscape of global financial crime combatting with our latest collection meticulously curated by leading researchers. At the intersection of finance, technology, law, governance, and international cooperation, this multidisciplinary exploration offers profound insights into the nuanced world of financial crime across diverse jurisdictions, including Australia, Germany, New Zealand, Nigeria, and the United Kingdom. Discover a wealth of knowledge as contributors investigate facets such as asset forfeiture, non-conviction based asset recovery, money laundering in the real estate sector, and the challenges and opportunities posed by new technologies and fintechs. Unravel the crypto crime and terror nexus and explore the necessity of public-private collaboration to combat the abuse of Non-Fungible Tokens. Dive into policy approaches including the WireCard scandal and understand how good governance, both public and corporate, remains paramount in the fight against financial crime. As we navigate an age of intergovernmental rulemaking, the collection emphasizes the crucial role of robust governance frameworks and examines the impact of permissive regulation on practices in the City of London. Delve into discussions on crime risk, risk management, de-risking, and the potential consequences of overcompliance and conservative risk approaches on financial exclusion levels. The collection concludes by pondering these current challenges, offering a thought-provoking exploration of what lies ahead.
