**Mind Hacking Secrets** John Dark,2020-01-25 What is mind hacking Did you know that your brain is a computer Did you know that your mind has two systems Do you how your mind controls your emotions How do emotions create behavior What are focus attention and concentration How can we change our current situation Did you know that you can reprogram your mind How do you identify negative influence and habits How do you set your goals and visualize them What are the common bad habits and behaviors What are the positive habits and behaviors Mind hacking secrets are described as something that enables someone to change their way of thinking Many methods can be used to enable one to change the state of mind and the way he may be reasoning Mind hacking is done to improve how the brain function and for the purpose of individual development By doing this you will make an individual perform the daily activities and eventually leads to productivity Our brains perform like computers for those who did not know The only difference is that a computer is a gadget while the brain is part of the human body The functions of the two are the same because they are used to store information The brain functions are the same as the functions of the computer The brain at the same time is made up of two systems They are one being system that produces spontaneous decisions that guide one on the way to live The second system is system 2 which deals with the way we think It focusses more on the sound mind before making a decision The brain is a complex organ It controls every task that takes part in the body Starting from the small parts of our bodies to the complex parts of the body all those functions in those parts of the body are controlled by the heart Not forgetting our emotions they are also controlled in the brain The emotions enable us to react to behaviors either good or bad We are all created with emotions the difference is how we control them That is why you will find that some people will be reactive when one wrongs them while we have an individual who will choose to be quiet when wronged In life we sometimes find ourselves in a group of individuals with negative influence and habits without realizing they are in the bad company of friends It is easy to identify such kind of people The kind of life we live either good or bad is contributed by the kind of friends we stay with and the activities you take part in if all the times you are always found doing bad things then it will contribute to your failures If you are that person who indulges in doing good always then success will be your part Can we read from the same script that the brain plays an

important role in controlling our basic emotions at any given time Do you agree that bad influence brings along undesired behaviors and habits Have you learned that our behaviors are contributed to the success we have achieved in life There is a close relationship between the brain with the basic emotions and the kind of behaviors and habits we have The goal of this book is to identify the mind hacking secrets and how to make use of them You will also learn about the methods used to mind hack your mind You will learn Mind Hacking Secrets The brain as a Computer Mind Having Two Systems Emotional and your Brain How Emotions Create Behavior Focus Attention and Concentration How We Can Change our Current Situation Reprogramming our Mind How to Identify Negative Influence and Habits Set your Goals and Learn to Visualize Common Bad Habits and Behaviors      **The Art Of Mind Hacking 2 In 1** Graham McGee,2019-12-04      **Mind & Brain Hacking for Beginners** Giovanni Rigters, Mind and Brain Hacking for Beginners will change your view of your entire life It will give you a better view of your own flaws and insecurities as well as instructions on how to overcome them and improve in any aspect of your life As you will see mind and or brain hacking does not necessarily mean that you change everything that defines you as a human being You will begin to see the flaws that you have and in this way you will know how to change them You may have even identified the negative behavior you have but you have probably tried and failed to change them for the better Using this book and the examples that are contained within it you will be able to permanently erase the negative sides of your personality routines habits etc
