Pdf Online Napalm American Biography Robert Neer:

Napalm Robert M. Neer, 2013-04-01 Napalm was invented on Valentine's Day 1942 at a secret Harvard war research laboratory. It created an inferno that killed over 87,500 people in Tokyo more than died in the atomic explosions at Hiroshima or Nagasaki and went on to incinerate 64 Japanese cities. The Bomb got the press but napalm did the work. Neer offers the first history.

The Classical Liberal Case for Israel Walter E. Block, Alan G. Futerman, 2021-11-02 This book offers a unique perspective on the State of Israel based on classical liberalism both on a historical and theoretical level. Specifically, it makes a classical liberal and libertarian analysis based upon homesteading and private property rights to defend the State of Israel. As such, this work explores the history of the Jewish State both to provide a positive case for its right to exist and to clarify the myths surrounding its origin and development. At the same time, it deals with other relevant related subjects such as the complex situation between Israel and the Palestinian Arabs, the military campaigns against the Jewish State, the connection between anti-Zionism and anti-Semitism, and Israel's economic miracle. The thorough analysis presented in this work intends to show not only why the voices and movements against Israel are wrong, including the Boycott, Divestment, and Sanctions movement (BDS), but more importantly, why Israel is an example of human flourishing and freedom that every advocate for liberty should celebrate. The Classical Liberal Case for Israel makes the practical and moral case for Israel. It is based on truths and facts that need to be repeated over and over. Block and Futerman understand that the only way to defeat a big lie is with a big truth. Benjamin Netanyahu, Prime Minister of the State of Israel, Jerusalem. Israel Classical Liberalism often associated with the spread West from Northern Europe in creating free nations is argued here as applying to Israel with ancient roots in the principles of human freedom. Vernon L. Smith, Ph.D., Nobel Prize in Economic Sciences 2002 and Professor George L. Argyros, Endowed Chair in Finance and Economics, Professor of Economics and Law, Smith Institute for Political Economy and Philosophy at Chapman University.
