A Student's Search for Meaning Melissa Carter,James Fraser,Chelsea Garbell,Amy Wilson,2023-11-25 This edited volume brings together reflections on how students pursue the search for meaning and purpose in the context of higher education It offers perspectives from humanities professors college chaplains of multiple faiths and observers of the changing shape of the American university as each considers the needs and expectations of today s students The collection address three key lines of inquiry what the student search for meaning looks like in the context of higher education how do presenters understand the dimensions of the search for meaning itself and how do or don t humanities faculty and religious life leaders talk to each other around the common student concerns addressed in both course work and the extracurricular world of religious life programs Together the conversation suggests that students pursue a search for meaning in the context of university life and the academic curriculum but the particular dimensions of this search are yet undefined This is often a contested pursuit because it conflicts with the other purposes of the university which some see as primary A key audience for this book is university administrators who work in the field of chaplaincy and faith based programming as well as department

chairs and faculty in the liberal arts who are directly involved in building humanities curriculum

Faith, Doubt, and Reason Brent A. R. Hege, 2020-02-05 Faith doubt and reason are universal human faculties yet they are frequently misunderstood denigrated and even abused What does it mean to have faith and what distinguishes faith from belief Can someone have faith without religious commitments What is doubt and what is its relationship to faith and belief How do we make sense of evil and suffering What roles does reason play in our lives What do we do when we have the sneaking suspicion that life is absurd What do we love and what do we fear How do faith doubt and reason interrelate Faith doubt and reason not only can work together they must work together if we are to live lives of meaning and purpose This book explores the significance of these three universal human faculties and the central role they play in our quest for the meaning of life Drawing on classic texts in theology philosophy literature and the Bible Faith Doubt and Reason invites readers to delve deeply into the quest for the meaning of life in all its ambiguity mystery and tragic beauty

Cartesian Nightmare Peter A. Redpath, 2022-06-08 This book challenges the presupposition among professional philosophers that Ren Descartes is the Father of Modern Philosophy It demonstrates by intensive textual analysis of Descartes s Discourse and Meditations that he inaugurated a new type of sophistry rather than a new way of conducting philosophy Transcendental Sophistry is a synthesis of Renaissance humanism and Christian theology especially the theology of creation This striking re evaluation of the achievement of Descartes opens the history of Western philosophy to radical reinterpretation

Classics of Western Philosophy Steven M. Cahn, 2006 The seventh edition of Steven Cahn s Classics of Western Philosophy features several major additions including selections from Plotinus Enneads Schopenhauer s The World as Will and Representation Husserl s Paris Lectures Wittgenstein s Philosophical Investigations and a new selection from Hegel s Phenomenology of Spirit Selections from Aristotle s Metaphysics and On the Soul have been expanded while Aristotle s Physics and Nicomachean Ethics Hume s Enquiry Concerning Human Understanding Mill s On Liberty and Russell s The Problem of Philosophy have been further abridged In all the new edition presents complete texts or substantial selections from fifty six philosophical masterpieces in pre eminent and thoughtfully annotated translations and editions with introductions by a team of distinguished scholars including Sara Ahbel Rappe Richard Bett Steven Cahn Charles Guignon Kathleen Higgins Patricia Kitcher Philip W Kitcher William Mann Derek Pereboom Ruth Anna Putnam Israel Scheffler David Shatz George Sher David Sherman Jonathan Vogel Meredith Williams and Michael Williams

Taking Back Philosophy Bryan W. Van Norden, 2017-12-05 Are American colleges and universities failing their students by refusing to teach the philosophical traditions of China India Africa and other non Western cultures This biting and

provocative critique of American higher education says yes Even though we live in an increasingly multicultural world most philosophy departments stubbornly insist that only Western philosophy is real philosophy and denigrate everything outside the European canon In Taking Back Philosophy Bryan W Van Norden lambastes academic philosophy for its Eurocentrism insularity and complicity with nationalism and issues a ringing call to make our educational institutions live up to their cosmopolitan ideals In a cheeky agenda setting and controversial style Van Norden an expert in Chinese philosophy proposes an inclusive multicultural approach to philosophical inquiry He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic Taking Back Philosophy is at once a manifesto for multicultural education an accessible introduction to Confucian and Buddhist philosophy a critique of the ethnocentrism and anti intellectualism characteristic of much contemporary American politics a defense of the value of philosophy and a liberal arts education and a call to return to the search for the good life that defined philosophy for Confucius Socrates and the Buddha Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non Western philosophy should be renamed a Department of European and American Philosophy this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom

Anthony Dormans MD FAAFP From skin and bone to organs and DNA the regenerative capabilities of the human body are not only astonishing they hint at something deeper The Living Signature lays out thoughtful well researched reflections and challenges you to consider whether the complexity and order we see in ourselves could truly be the product of blind chance or the body itself is whispering something about its origin a message not of randomness but of meaning Costiuc Alexandru M D Specialist in Gastroenterology Regina Maria Romania Resident Physician in Family Medicine University of Oradea
