Middle East and Central Asia Dept., 2016-04-01* This paper discusses economic performance status and policy developments of Pakistan Amid setbacks to structural reform the authorities have made substantial progress in restoring economic stability Economic activity continues to strengthen gradually International reserve buffers are increasing amid a broadly stable current account deficit However there are number of risks to the economy Slower growth in key advanced markets such as China and the

Gulf can further erode export competitiveness The Pakistani government is determined to maintain fiscal consolidation in FY 2015 16 and over the medium term Continued tax administration reforms are important for further improving tax compliance and supporting revenue mobilization

Trinidad and Tobago International Monetary Fund. Western Hemisphere Dept.,2013-10-03 This 2013 Article IV Consultation highlights that the economy of Trinidad and Tobago is poised for a modest recovery in 2013 after disappointing growth in 2012 that was owing to largely supply constraints including maintenance operations in the energy sector and an industrial dispute in the nonenergy sector The IMF staff projects real GDP growth of some 1.5 percent in 2013 with risks slightly to the downside should development spending be under executed Headline inflation rose to 9.3 percent in 2012 Executive Directors welcomed the signs of economic recovery fueled by growth of the nonenergy sector

Two Bengals Arindam Banik,Munim Kumar Barai,2023-05-18 Bangladesh and the Indian state of West Bengal share many characteristics including a common language fertile land abundant rainfall year round warmth and a dense population This book examines the progress made in crucial economic sectors that have paved the way for the development of Bangladesh and West Bengal The book begins by describing how Bangladesh is moving toward achieving the status of a middle income nation and how West Bengal seems to have fallen into the trap of developmental experiments with different political ideologies over time The book then compares the trajectory of development in various economic sectors of the two economies In doing so it covers social development education health care food habits cinema and theatre and the entrepreneurship of both entities The chapters take an empirical and descriptive approach to address various issues analyse results draw conclusions and make policy suggestions

The Macroeconomics of Medium-Term Aid Scaling-Up Scenarios Jan Gottschalk,Rafael Portillo,Luis-Felipe Zanna,Mr.Andrew Berg,2010-07-01 We develop a model to analyze the macroeconomic effects of a scaling up of aid and assess the implications of different policy responses The model features key structural characteristics of low income countries including varying degrees of public investment efficiency and a learning by doing LBD externality that captures Dutch disease effects On the policy front it distinguishes between spending the aid which is controlled by the fiscal authority and absorbing the aid financing a higher current account deficit which is influenced by the central bank's reserve accumulation policies We calibrate the model to Uganda and run several experiments We find that a policy mix that results in full spending and absorption of aid can generate temporary demand and real exchange rate appreciation pressures but also have a positive effect on real GDP in the medium term through higher public capital Full spending with partial absorption on the other hand may stem appreciation pressures but can also induce adverse medium term real GDP effects through private sector crowding out When aid is very inefficiently invested and there are strong LBD externalities aid can be harmful and partial absorption policies may be justified But in this case a welfare improving solution is to defer spending or even better if possible raise its efficiency
