## **Mind Fuck Administration:**

**By the People...** William M. Schmalfeldt, 2004-04 With the Vice President's recent death and President DeWitt's health worsening by the day the precarious balance of power between the Democratic President and a Republican controlled Congress has moved to the right. Albert Wantner, the politically shrewd Speaker of the House, will ascend to the Presidency if the ill and elderly President dies before a new veep is appointed. For this reason, Wantner plans to delay Congressional approval of any candidate and the President realizes that he must choose a person so politically pure that the public will clamor for his confirmation and punish Wantner for any delay. Enter Roberto Huerta, a disillusioned first-term Democratic congressman from Texas who recently became America's newest celebrity by rescuing a woman from an assault by Washington street thugs. After some soul searching, Huerta accepts the President's offer and a bitter but ultimately successful bid for Congressional approval takes place. Soon after, Huerta is sworn in, the President drops a bombshell in a speech to a joint session of Congress, leaving a frightened and somewhat astonished Huerta struggling to establish a Capra-esque executive branch that is truly directed by the people.

**Mind Fuck** Manna Francis, 2007 There are no bad guys or good guys. There are only better guys and worse guys. One of the worse guys is Val Toreth. In a world in which torture is a legitimate part of the investigative process, he works for the Investigation and Interrogation Division where his colleagues can be more dangerous than the criminals he investigates. One of the better guys is Keir Warrick. His small corporation, SimTech, is developing a sim system that places users in a fully immersive virtual reality. A minnow in a murky and dangerous pond, he is only beginning to discover how many compromises may be required for success. Their home is the dark future dystopia of New London. A totalitarian bureaucracy controls the European Administration, sharing political power with the corporations. The government uses violence and the many divisions of the feared Department of Internal Security to maintain control and crush resistance. The corporations fight among themselves using lethal force under the euphemism of corporate sabotage, uniting only to resist attempts by the Administration to extend its influence over them. Toreth and Warrick are more natural enemies than allies. But mutual attraction and the fight for survival can create unlikely bonds.

**Anker's Plight** Gerald Amada, 2006 Brace yourself for the lighter side of the psychotherapy profession, the hysterical stuff rarely revealed as seen through the daily trials and tribulations of one dedicated, albeit frustrated, Dr. Ted Anker, struggling to save his fledgling mental health program on the campus of Malform College in the face of fierce and stubborn opposition from an authoritarian college administration. We follow our protagonist, an idealistic, clever young psychologist, with an irresistible proclivity for puns and for authentic and no-holds-barred confrontation, perhaps the author's alter ego in his vivid journey through a variety of unsatisfactory jobs in a mental health clinic, a welfare department, a group home, and academia. On his way, he denounces the absurdities and hypocrisies of our bureaucracy and of our whole society. He meets one incompetent, venal, cowardly, malevolent, and otherwise contemptible character after another, usually in the persona of his chiefs. The quaint case histories

that crisscross the story as well as the excitement as to its eventual outcome add further dimensions to this enjoyable story If you yearn after a frustrating day at work for a totally funny sarcastic easy read in which all the indignities of your work situation are described and lambasted this book is for you Sophie Freud MSW Ph D Book Review Editor American Journal of Psychotherapy Professor Emerita Granddaughter of Dr Sigmund Freud This is a well written fast paced novel reflective of many of the sociopolitical conditions that facilitate or perhaps more often impede the development of effective college and university mental health programs The narration gives a compellingly vivid personalkind of suspense like that of a good mystery story Leighton Whitaker Ph D ABPP Editor Journal of College Student Psychotherapy Dr Amada s engaging and humorous book is a too realistic too familiar rollercoaster ride in the real world of college counseling It really highlights the challenges facing clinicians to get their campuses to recognize the importance of emotional well being for academic success I think this book ought to be required reading for anyone considering going into the mental health field in order to get a picture of what a strange world it is Richard Kadison M D Chief of Mental Health Service Harvard University Health Services
