**What Can You Do with Your Bible Training?** Brandon C. Benziger,Adam W. Day,2023-06-23 Employment in the field of biblical studies has changed significantly in recent years and the coronavirus pandemic has only exacerbated the resulting challenges The purpose of this anthology is to inform and inspire evangelical students and graduates of biblical studies programs about the wide variety of training related vocational paths they can pursue both conventional and unconventional

The book does this by listing and categorizing twenty five relevant pathways sharing the stories and insights of insiders within each pathway and calling for further creativity in putting one's biblical training to work. Each contributor shares 1 how they settled into their represented occupation 2 the ways in which they have used their biblical training in that occupation 3 the joys and trials of their work and 4 advice for those who would like to follow in their footsteps. The volume stands in the tradition of several nuts and bolts like resources within the guild e.g. Nijay Gupta's *Prepare Succeed Advance* and Ben Witherington's *Is There a Doctor in the House* and it seeks to develop that tradition considerably. The Report: Myanmar 2015 Oxford Business Group, 2015-03-03 The country's location within the region and population of more than 50m will help it achieve growth with international analysts predicting Myanmar's economy to be worth up to 200bn by 2030. With elections set to take place in late 2015 the world is eagerly watching to see how things will unfold. After spending decades as one of the most isolated and least developed countries in Asia Myanmar is emerging as one of the world's fastest growing economies. Agriculture, manufacturing and mining are some of Myanmar's top contributors to GDP which was forecast to reach 8.5% in FY2014/15 and FY2015/16. While foreign investment is accelerating there are ways in which it remains blocked. As the country continues to re-integrate with the global economy continued reforms as well as the opening of more economic sectors to foreign investors will help unlock the country's potential. Academic Autoethnographies

Daisy Pillay, Inbanathan Naicker, Kathleen Pithouse-Morgan, 2016-02-10 Academic Autoethnographies Inside Teaching in Higher Education invites readers to experience autoethnography as a challenging, complex and creative research methodology that can produce personally, professionally and socially useful understandings of teaching and researching in higher education. The peer-reviewed chapters offer innovative and perspicacious explorations of interrelationships between personal autobiographies, lived educational experiences and wider social and cultural concerns across diverse disciplines and university contexts. This edited book is distinctive within the existing body of autoethnographic scholarship in that the original research presented has been done in relation to predominantly South African university settings. This research is complemented by contributions from Canadian and Swedish scholars. The sociocultural, educational and methodological insights communicated in this book will be valuable for specialists in the field of higher education and to those in other academic domains who are interested in self-reflexive, transformative and creative research methodologies and methods. This book illuminates how autoethnography can engage authors and researchers from varied epistemological backgrounds in a reflexive multilogue about who they are and what they do. The creative representations of the lived experience of doing autoethnography sets the book apart both methodologically and theoretically, revealing how rigor and critical distance can serve to position autoethnography not only as a personal self-development tool but a tradition and method in its own right. Hyleen Mariaye, Associate Professor, Mauritius Institute of Education, Mauritius. This compelling book foregrounds autoethnography as an innovative and creative research methodology to generate reflexive, sociological
