- Bring a calculator
- Draw sketch diagrams if needed
- Aim to complete the 25 questions on the paper in 20-22 minutes

Supported Multiple Choice Questions for EdExcel

- (i) There is one mark for selecting the correct option
- (ii) There are three marks for explanation
- (iii) It is possible to achieve 3 explanation marks even if the incorrect option has been selected

One function of the price mechanism is to:		(1)
A	Encourage businesses to exit a market as price of the goods produced increases	
B	Eliminate a surplus of a good by allowing the market price to fall	
C	Encourage government intervention to set production targets	
D	Maintain price stability	
Answer	<input type="checkbox"/>	
Explanation		(2)

The correct answer is **B** (1 mark) but how best to get the full 3 marks for this question?

- **Define your terms** i.e. price mechanism (a mechanism to allocate scarce resources through changes in demand and supply) (gets 1 mark)
- **Show a supply and demand diagram** depicting a surplus and how a fall in price leads to market equilibrium (contraction in supply and extension in demand) (1+1 marks)

General advice for supported MC questions (note: this refers to the EdExcel Board only)

- **Define key terms** throughout questions 1 to 8 on the EdExcel paper
- Consider the **key concept or model that lies behind question**
- **Apply the information provided** e.g. the effects of a tax or a subsidy on a market
- **Annotate the diagrams** provided in the question paper e.g. shading in or labelling areas of consumer & producer surplus, govt spending on a subsidy or agency spending on a buffer stock
- Be prepared to **annotate tables of data** too - complete them or make some simple calculations
- Be prepared to **calculate percentages and show your workings**, including a relevant formula
- **Reject one or more of the options** - remember to briefly explain why you have rejected them
- A suitable diagram can score two marks out of three - be prepared to offer simple diagrammatic analysis - this unit credits the application of demand and supply diagrams to economic issues
- Be prepared to offer **economic analysis**, for example, explaining how the free rider problem occurs in the provision of public goods. This will always be credited with marks.
- Offer real world examples as a way of applying theory - for example causes of geographical immobility, causes of imperfect information
