Turkey Crafts

Look at the funny turkey crafts we made! I made a turkey with my hand. My friend made a turkey headband. We are going to show them to our teacher now. Do you think Mr. Frank will like them?

What did I make a turkey with?

What did my friend make?

What is our teacher's name?

Online Reading For 1st Grade:

Reading, Writing, and Literacy 2.0 Denise Johnson, 2014 In today's high stakes testing environment integrating technology into the curriculum is often seen as something extra or for use with a few special projects. With the growth in Internet use by even the youngest children, educators urgently need a practical introduction to online literacy and reading comprehension. *Reading Writing and Literacy 2.0* offers that and more by providing tools and teaching strategies for incorporating online reading and writing into classroom learning as well as a host of web resources that teachers can draw on to make this happen. All this without endless hours of searching. Denise Johnson's book connects to the Common Core State Standards and is organized around the Technological Literacy Assessment of the National Assessment of Education Progress (NAEP) which focuses on three areas that characterize a technologically literate person: knowledge, capabilities, and critical thinking and decision making. This resource provides everything reading teachers need to begin using technology to deepen and enrich literacy learning for all students. In addition, the author maintains a companion blog to update and add helpful teaching links. **Book Features:** An explanation of the concept and practices of literacy 2.0 and how it differs from literacy 1.0. Specific examples and resource links for using technology with diverse learners in the K-8 classroom, including translation sites and multilingual materials. Examples of teacher to student and student to student wiki and blog interactions. Companion blog offers ongoing support including links to resources, new teaching tools, classroom examples, and more. There are many things that I love about this book. It is written with a voice wise to both the opportunities and the challenges of classroom teaching. It also contains a vast number of ideas that can be immediately used in your classroom. Of course, too, it describes effective teaching of new literacies with so many new technologies. In addition, it begins by providing a clear and compelling framework to put all of the upcoming ideas into a package that will make perfect sense to any teacher. From the Foreword by Donald J. Leu, Neag Chair in Literacy and Technology, University of Connecticut Neag School of Education. Written in a clear and practical format, this book weaves research based practices across print and digital literacy worlds into engaging learning communities for younger and older readers alike. Denise Johnson's innovative lessons and assessment ideas provide step by step supports for designing curriculum in a Web 2.0 world. Julie Coiro, University of Rhode Island.

Strategies That Work Stephanie Harvey, Anne Goudvis, 2017 In this new edition of their groundbreaking book *Strategies That Work* Stephanie Harvey and Anne Goudvis share the work and thinking they've done since the second edition came out a decade ago and offer new perspectives on how to explicitly teach thinking strategies so that students become engaged thoughtful independent readers. Thirty new lessons and new and revised chapters shine a light on children's thinking curiosity and questions. Steph and Anne tackle close reading, close listening, text complexity and critical thinking in a new chapter on building knowledge through thinking intensive reading and learning. Other fully revised chapters focus on digital reading strategies for integrating comprehension and technology and comprehension across the curriculum. The new edition is organized around three sections. Part I provides readers with a solid introduction to reading comprehension instruction including the principles that guide practice suggestions for text selection and a review of recent research that underlies comprehension instruction. Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III shows you how to integrate comprehension instruction across the curriculum and the school day particularly in science and social studies. Updated bibliographies including the popular *Great Books for Teaching Content* are accessible online. Since the first publication of *Strategies That Work* more than a million teachers have benefited from Steph and Anne's practical advice on creating classrooms that are incubators for deep thought. This third edition is a must have resource for a generation of new teachers and a welcome refresher for those with dog eared copies of this timeless guide to teaching comprehension.

Revolutionizing K-12 Blended Learning through the i²Flex Classroom Model Avgerinou, Maria D., Gialamas, Stefanos P., 2016-06-20 Blended learning has gained significant attention recently by educational leaders, practitioners and researchers. i Flex a variation of blended learning is based on the premise that certain non-interactive teaching activities such as lecturing can take place by students without teachers' direct involvement. Classroom time can then be used for educational activities that fully exploit teacher-student and student-student interactions, allowing for meaningful personalized feedback and scaffolding on demand. *Revolutionizing K-12 Blended Learning through the i Flex Classroom Model* presents a well-rounded discussion on the i Flex model, highlighting methods for K-12 course design, delivery and evaluation in addition to teacher performance assessment in a blended i Flex environment. Emphasizing new methods for improving the classroom and
