Through cultural criminology, this book brings together existing research to provide an overview of historical and modern moral panics related to human trafficking. What do you picture when you hear the words human trafficking? Perhaps you imagine someone kidnapped and sold as shown in films or worry that sex trafficking increasingly occurs online or in big cities during major events. While sex trafficking does occur, the reality of human trafficking is complex, though this reality is often obscured by the media. The media has played a large role in shaping understanding of this crime with panics, conspiracies, and misinformation abounding. This book uses cultural criminology to break down historical and modern panics to understand the links between media portrayals of human trafficking, perpetuation of stereotypes, and influences on policy. The text examines the impacts of human trafficking panics perpetuated by media, including understanding the origins of human trafficking in the nineteenth century White slave panic, the ways that popular media perpetuates stereotypes, the reality of trafficking at sporting events, and the role of social media in generating misinformation. *Human Trafficking Hysteria* is a valuable resource for criminology and sociology classes as well as special topics classes on sex crimes, victimization, or the media.

Broadening the Scope of Human Trafficking Research Erin C. Heil, Andrea J. Nichols, 2017. BONUS ONLINE ONLY. CHAPTERS: Interviews with Human Traffickers; Perceptions of Sex and Violence; Emily I. Troshynski and Jennifer K. Blank: A Comparison of DV, IPV, and Sex Trafficking; How Understanding Batterers Can Help Develop Programming for Boyfriend Pimp Traffickers; Erica Michelson: The Impact of John Schools on Demand for Prostitution; Eleanor Levine: Broadening the Scope of Human Trafficking Research. This is an edited reader that not only discusses the myriad of types of human trafficking (e.g., sex trafficking, labor trafficking, adoption child soldiers, organ trafficking, servile marriage) but also the diversity of victims, identities, and the relationship to heightened trafficking risk (e.g., race, ethnicity, socioeconomic status, age, sex, sexual orientation, gender identity). The book emphasizes the multiple types of human trafficking and exploitation evident worldwide, with a particular emphasis on identity-based vulnerabilities and those otherwise marginalized in the research literature. The public discourse associated with human trafficking has led the general public to believe that human trafficking is synonymous with sex trafficking. Although this is the most identified form of human trafficking, it is not the only practice of traffickers. It has been revealed that children are illegally sold through false adoption agencies, women are bought for marriage and then forced into various forms of labor, children become involved in paramilitary organizations and are coerced into fighting as soldiers. All of these activities fall under the umbrella term of human trafficking but are not often socially nor

legally represented as such Similarly the role of identity based oppression is marginalized in the research literature as well This edited reader reveals the complexity of human trafficking and lays the groundwork for a shift in the global understanding and policies associated with human trafficking It brings together experts from multi disciplinary perspectives and backgrounds to discuss the various types of human trafficking as well as the myriad of victim identities and related vulnerabilities PowerPoint slides are available to professors upon adoption of this book Download a sample of the full 175 slide presentation here If you have adopted the book for a course contact bhall cap press com to request the PowerPoint slides

A Feminist Perspective on Human Trafficking of Women and Girls Nancy M. Sidun, Deborah L. Hume, 2019-05-16 Focusing on the trafficking of women and girls from a feminist perspective this book examines how social structures and gender influence human trafficking While women and girls are not the only victims of trafficking they tend to be disproportionately represented Structural inequities including poverty gender based violence racism class and caste based discrimination and other forms of oppression and marginalization place some individuals at substantially greater risk to be trafficked The contributors explore topics including trauma informed assessment of and therapy with survivors of human trafficking issues facing children of trafficked women when they are reintegrated into their communities post trafficking the intersection of trafficking with racial and cultural oppression critical aspects of international sex trafficking and commercial sexual exploitation of children The book concludes with a discussion of how human trafficking intersects with both intracountry adoption and brokered marriages This book was originally published as a special issue of Women Therapy

Human Trafficking Kangana Singh, 2017 **Representations of Transnational Human Trafficking** Christiana Gregoriou, 2018-06-29 This open access edited collection examines representations of human trafficking in media ranging from British and Serbian newspapers British and Scandinavian crime novels and a documentary series and questions the extent to which these portrayals reflect the realities of trafficking It tackles the problematic tendency to under report particular types of victim and forms of trafficking and seeks to explore both dominant and marginalised points of view The authors take a cross disciplinary approach utilising analytical tools from across the humanities and social sciences including linguistics literary and media studies and cultural criminology It will appeal to students academics and policy makers with an interest in human trafficking and its depiction in the modern day

Challenging the Human Trafficking Narrative Erin O'Brien, 2018-07-27 What is the moral of the human trafficking story and how can the narrative be shaped and evolved Stories of human trafficking are prolific in the public domain proving immensely powerful in guiding our understandings of trafficking and offering something tangible on which to base policy and action Yet these stories also misrepresent the problem establishing a dominant narrative that stifles other stories and fails to capture the complexity of human trafficking This book deconstructs the human trafficking narrative in public discourse examining the victims villains and heroes of trafficking stories Sex slaves exploited workers mobsters pimps and johns consumers governments and anti trafficking

activists are all characters in the story serving to illustrate who is to blame for the problem of trafficking and how that problem might be solved Erin O'Brien argues that a constrained narrative of ideal victims foreign villains and western heroes dominates the discourse underpinned by cultural assumptions about gender and ethnicity and wider narratives of border security consumerism and western exceptionalism Drawing on depictions of trafficking in entertainment and news media awareness campaigns and government reports in Australia the United Kingdom and the United States of America this book will be of interest to criminologists political scientists sociologists and those engaged with human rights activism and the politics of international justice
