*Complexity and Resilience in the Social and Ecological Sciences* Eoin Flaherty, 2018-08-16 This book introduces a new approach to environmental sociology by integrating complexity informed social science Marxian ecological theory and resilience based human ecology It argues that sociologists have largely ignored developments in ecology which move beyond functionalist approaches to systems analysis and as a result environmental sociology has failed to capitalise not only on the analytical promise of resilience ecology but on complementary developments in complexity theory By tracing the origins and discussing current developments in each of these areas it offers several paths to interdisciplinary dialogue Eoin Flaherty argues that complexity theory and Marxian ecology can enhance our understanding of the social aspect of social ecological systems whilst a resilience approach can sharpen the analytical power of environmental sociology Frontiers of Globalization Research: Ino Rossi, 2007-03-21 To bring this volume together the editor asked leading scholars in the field of globalization to outline a research framework that reflects their own approach to the subject The resulting book presents a broad spectrum of analytical approaches to globalization Theoretical reviews are complemented by substantive chapters and methodological analyses Contributors include scholars in the fields of sociology anthropology history and political science These writings have been organized into four sections theoretical perspectives and cultural globalization economic globalization political globalization and methodological approaches *Systemic Ethics and Non-Anthropocentric Stewardship* Janet McIntyre-Mills, 2014-10-01 This book makes a case for rights and responsibilities to be expressed through a cosmopolitan praxis based on developing strong cosmopolitan approaches This developed approach respects a form of cultural or national identity that is not at the expense of others the environment or future generations This new stoicism is based on a sense of responsibility for others The book also explores systemic ethical praxis in response to the vexed challenge of how to bridge the false dualism of pitting the environment versus profit *Systemic Ethics and Non Anthropocentric Stewardship Implications for Transdisciplinarity and Cosmopolitan Politics* is organized into seven chapters The book begins by providing readers with an understanding of the way in which cosmopolitanism like all social concepts is shaped by diverse definitions and applied differently by theorists and those that engage in transformative praxis It also develops an argument based on considering the empirical consequences of social economic and environmental decisions on the quality of life of current and future generations The next chapter critiques anthropocentrism and explores how policy makers develop agreements on what constitutes and supports the wellbeing of the planet rather than the GDP The book then explores the options for social democracy and ways to enhance an ethical approach to post national governance and argues for participatory democracy and governance to respond to diversity within and across national boundaries The following chapters reflect upon the author's own participatory action research process and examines the transformations that can arise through critical systemic thinking and practice Next the book makes the case for systemic ethical governance that is able to

manage consumption before concluding with a final look at the book's approach based on critical heuristics

Chall, 2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers

*Ecological Law and the Planetary Crisis* Geoffrey Garver, 2020-10-29 This book uses a transdisciplinary systems approach to examine how Earth's human caused ecological crisis arose and presents a new legal approach for overcoming it Ecological Law and the Planetary Crisis first examines how the history of humanity's social metabolism along with the history of human inventions and ideas led to the human Earth dilemma we see today and explains why contemporary law is inadequate for confronting this dilemma The book goes on to propose ecological law law that maintains human activity within ecological limits such as planetary boundaries while ensuring social justice and equity as an essential element of an urgently needed radical pathway of change toward a perpetual mutually enhancing human Earth relationship Finally it offers a systems based analytical tool for organizing actions to promote the transition from environmental to ecological law Increasing the visibility clarity and development of ecological law this book will be of great interest to students and scholars of ecological and environmental law and governance

*Lawyers and the Rule of Law in an Era of Globalization* Yves Dezalay, Bryant Garth, 2011-01-30 First published in 2011 Lawyers and the Rule of Law in an Era of Globalization focuses on the national and transnational processes transforming both the rule of law and the role of lawyers The book draws on a framework that emphasizes the relationship between the national the international the strategies of lawyers at various political levels and the circulation of ideas and people As such it considers the rule of law not as a normative ideal that has to be accomplished and realized but rather as a field of action and discourse that emerges through complex relationships among experts national elites and global institutions Through detailed empirical work the contributors all examine the relationship between law politics and the state focusing on lawyers and the social capital they possess and deploy in order to understand the efficacy of the rule of law in different polities This book will be invaluable for socio legal scholars students of the legal profession as well as those with interests in law and development studies

*Science and Public Affairs*, 1998

*Law, Complexity and Globalisation* Julian Webb, 2006-08 Complexity theory has its earliest origins in studies of self organization within genetic and other biological systems and in parallel developments elsewhere in the natural sciences More recently still complexity theory has begun to impact thinking in the social sciences and social theory Philosophically there are still strong links with both post structuralist and phenomenological traditions while in terms of social theory complexity theory has tended to be treated as a species of systems theory and hence linked to the normative functionalist projects of Durkheim and Parsons However more recent work on the social science of complexity has stressed how complexity theory can transcend the status inherent in classical

functionalist thinking about the social order by stressing the fluid heterogeneous unpredictable and increasingly global ordering of the social world *Emerging Approaches to Educational Research* Tara Fenwick, Richard Edwards, Peter Sawchuk, 2015-04-08 *Emerging Approaches to Educational Research* explores four significant framings to do with research on education and learning across the lifecourse It discusses how they are being taken up and utilised as well as their possibilities and limitations complexity science cultural historical activity theory CHAT actor network theory ANT spatiality theories **Current Law Index** ,2006 **Index of Conference Proceedings** British Library. Document Supply Centre, 2002 Globalization Development and Social Justice Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology anthropology and development studies
