

# Complacency & Collusion

---

A CRITICAL INTRODUCTION TO  
BUSINESS AND FINANCIAL JOURNALISM

---

*Complacency and Collusion* focuses on the content and practice of financial and business journalism, giving compelling explanations for why big business needs the press and why the press needs big business.

Keith J. Butterick cuts through the misreporting that has occurred since the financial crisis and makes clear the inadequacies of articles in prestigious papers and magazines. In concluding his analysis he reflects on what the growth and spread of complacent, complicit corporate journalism will mean for the future of a free media.

Keith J. Butterick is director of the Centre for Communication and Consultation Research at the University of Huddersfield and the author of *Introducing Public Relations Theory and Practice* (2011). He is an award-winning business journalist and magazine editor.

## **Book Complacency Collusion Introduction Financial Journalism:**

Complacency and Collusion Keith J. Butterick, 2015-10-20 *Complacency and Collusion* focuses on the practice of financial and business journalism giving compelling explanations for why big business needs the press and why the press needs big business. The growing passivity and changing bias of Western journalists is widely acknowledged. Across the media in newspapers, TV, media and the internet, journalism is increasingly hollowed out by writers who are no longer gathering news but rather churning out unsourced information, PR texts and online snippets. Behind this dubious practice is an increasingly invested corporate sector whose stake in the mainstream media as a mouthpiece has exponentially increased in the last few decades. The book cuts through the misreporting that has occurred since the financial crisis and makes clear the inadequacies of articles in prestigious papers and magazines such as the *Economist* and *Financial Times*. It reflects on what the growth and spread of complacent corporate journalism will mean for the future of a free media. **A Churnalism,**

**Complacency and Collusion** Keith J. Butterick, 2015-04-23 *Churnalism* *Complacency and Collusion* provides a definitive analysis of financial and business journalism: its origins, how and why it developed, and how it shapes and influences political debates. Keith J. Butterick provides a compelling explanation for why big business needs the press and why the press needs big business. The book cuts through the fog of misreporting which occurred during the recent financial crisis, explaining just why so much that passes for financial journalism is inadequate. Butterick sheds light on an area of journalism which is little understood, revealing the models by which it operates and why business and financial journalism continues to be more successful than other sectors of the printed media. It will be essential reading for students of journalism and media studies.

Complacency and Collusion Keith J. Butterick, 2015 **Business Journalism** Ibrahim Seaga Shaw, 2015-07-16 *Business Journalism: A Critical Political Economy Approach* critically explores the failures of business journalists in striking the balance between the bottom line business model and their role in defending the public interest. Drawing on historical and political economic perspectives and analysing these in relation to critical political economic theory, the book explores failures of business journalism through the dwindling of social responsibility in the business journalist's role in holding political and corporate power to account. Ibrahim Seaga Shaw draws on a diverse range of case studies including investigative journalism in the Standard Oil and Enron scandals, corporate propaganda in relation to business reporting, financial journalism and the global financial crises of the late 90s and 2008, public business journalism and subprime mortgage loans, horsemeat and bent iPhone 6 scandals, ethical challenges of business and journalism from developed to emerging BRICS economies, business or financial journalism, Modernity vs postmodernity, macroeconomics vs microeconomics, challenges of business journalism in the digital age. *Business Journalism: A Critical Political Economy Approach* is essential reading for students and scholars interested in understanding the historical failings and potential futures for business journalism and those wishing to develop specialist financial, economic and business reporting in today's globalised media landscape. *The Oxford Handbook of*

*Global Studies* Mark Juergensmeyer, Saskia Sassen, Manfred B. Steger (#d), 2019 Since the end of the Cold War globalization has been reshaping the modern world and an array of new scholarship has risen to make sense of it in its various transnational manifestations including economic social cultural ideological technological environmental and in new communications The chapters discuss various aspects in the field through a broad range of approaches This handbook focuses on global studies more than on the phenomenon of globalization itself although the various aspects of globalization are central to understanding how the field is currently being shaped *The Propaganda Model Today* Joan

Pedro-Carañana, Daniel Broudy, Jeffery Klaehn, 2018-10-25 While the individual elements of the propaganda system or filters identified by the Propaganda Model PM ownership advertising sources flak and anti communism have previously been the focus of much scholarly attention their systematisation in a model empirical corroboration and historicisation have made the PM a useful tool for media analysis across cultural and geographical boundaries Despite the wealth of scholarly research Herman and Chomsky's work has set into motion over the past decades the PM has been subjected to marginalisation poorly informed critiques and misrepresentations Interestingly while the PM enables researchers to form discerning predictions as regards corporate media performance Herman and Chomsky had further predicted that the PM itself would meet with such marginalisation and contempt In current theoretical and empirical studies of mass media performance uses of the PM continue nonetheless to yield important insights into the workings of political and economic power in society due in large measure to the model's considerable explanatory power **The Enforcers** Rob Wells, 2019-11-18 In the 1980s real estate developer and banker Charles H Keating executed one of the largest savings and loans frauds in United States history Keating had long used the courts to muzzle critical reporting of his business dealings but aggressive reporting by a small trade paper called the National Thrift News helped bring down Keating and offered an inspiring example of business journalism that speaks truth to power Rob Wells tells the story through the work of Stan Strachan a veteran financial journalist who uncovered Keating's misdeeds and links to a group of US senators the Keating Five who bullied regulators on his behalf Editorial decisions at the National Thrift News angered advertisers and readers but the newsroom sold ownership on the idea of investigative reporting as a commercial opportunity Examining the National Thrift News's approach Wells calls for a new era of business reporting that can and must embrace its potential as a watchdog safeguarding the interests of the public Financial Communication Keith Butterick, 2024-12-12 This essential guide to financial communication provides a

concise critical overview of this increasingly important field It challenges existing assumptions about the role and significance of financial public relations PR and investor relations and the dominant paradigm of shareholder value This book explores how the dominant paradigm in financial PR is based on the methodologically and historically incorrect assumption of symmetrical communication Highlighting the importance of financial communications in the corporate hierarchy where it is often a direct function of the Finance Director this book critically assesses its ideological role in normalising the idea and

role of the market and promotes the neoliberal view that the sole function of the public company is to increase shareholder value. It opens up new theoretical perspectives by considering retail investor behaviour from the perspective of fad theory through the behaviour of investors during financial booms, busts and bubbles. This volume will be of interest to researchers in the fields of PR, financial communication, accounting and financial management as well as practitioners working in financial PR and investor relations.
