## For Keeping Husband Happy:

**How to Be a Good Wife and Keep Your Husband Happy** Mary Beth LeRoux,2015-04-06 There s no question as to the importance of a man keeping his wife happy AKA the happy wife happy life theory but let s not forget that in marriage it takes two to tango We are only one half of the equation and the person we married is the other half our husbands And in order to have a happy marriage both sides of the equation need to be balanced Oddly enough in many cases of broken marriages wives reported to have been taken completely by surprise They never even suspected their husband to be unhappy until the day he asked for a divorce It s important that you try to stay in tune with your husband s emotional wellbeing so as to avoid such a scenario Taking care of our marriage is not merely about keeping our husbands happy but it s also about keeping our family intact When marriages are broken children are also affected This is yet another reason to keep your husband s happiness on your radar and make sure you treat him as a priority Of course being a good wife requires a lot of effort especially the type of effort you must exert for example to hold your tongue or to change your way of thinking But once you persevere and you begin to feel the positive changes take place in your marriage chances are you will feel even more invigorated and energized than you ve ever felt before This book is for all the strong women out there who are willing to take the necessary steps for the betterment of their marriage and family knowing that it may not always be easy If you apply the principles divulged in this book I guarantee that you will love being married again and that your husband will feel like a very lucky man Let s get started
