Quality of Primary Education in Ethiopia ,2002 The Politics of Technology in Africa Iginio Gagliardone,2016-11-10 Influencing Policy without Influencing Technology COVID-19 and women's intersectionalities in Africa Ashwanee Budoo-Scholtz,Adetokunbo Johnson,2023-05-23

COVID 19 has become one of the most severe issues dominating discussions on the agendas of states globally and across the African continent since its emergence in 2019 The COVID 19 pandemic has regrettably brought into sharp focus the continued multiple and intersecting forms of discrimination faced by women and girls in Africa because of their intersecting identities Yet paradoxically although African women are disproportionately affected by the crisis they are largely invisible in the responses Several African states and governments have taken different policy measures in response to

the pandemic These responses have taken different dimensions including shutting down economies imposition of lockdowns coercive quarantine measures with police enforcement and criminal consequences for offenders violating these rules Unfortunately these responses have reinforced and amplified women s disproportionate disadvantage and gender inequalities in Africa Against this backdrop this book asks the intersectional question about women s experiences during the COVID 19 pandemic in Africa Applying an intersectional human rights lens involves questioning how the intersecting identities that African women embody affect their experiences of the COVID 19 pandemic *Halvorsen: Sharing Knowledge, Transforming Societi* ,2023-01-10 In June 2016 the Norwegian Programme for Capacity Development in Higher Education and Research for Development Norhed hosted a conference on the theme of knowledge for development in an attempt to shift the focus of the programme towards its academic content This book follows up on that event The conference highlighted the usefulness of presenting the value of Norhed s different projects to the world showing how they improve knowledge and expand access to it through co operation A wish for more meta knowledge was also expressed and this gives rise to the following questions Is this way of co operating contributing to the growth of independent post colonial knowledge production in the South based on analyses of local data and experiences in ways that are relevant to our shared future Does the growth of academic independence as well as greater equality and the ability to develop theories different to those imposed by the better off parts of the world give rise to deeper understandings and better explanations Does it at least spread the ability to translate existing methodologies in ways that add meaning to observations of local context and data and thus enhance the relevance and influence of the academic profession locally and internationally This book in its varied contributions does not provide definite answers to these questions but it does show that Norhed is a step in the right direction Norhed is an attempt to fund collaboration within and between higher education institutions We know that both the uniqueness of this programme and ideas of how to better utilise the learning and experience emerging from it call for more elaboration and broader dissemination before we can offer further guidance on how to do things better This book is a first attempt Annual Report Christian Relief & Development Association (Ethiopia),2003 Human Rights Internet Reporter ,1996 **Gale Guide to Internet Databases** Joanna Zakalik,1995 Fast access to 2 000 authoritative Internet information sites each fully described 5 easy to use indexes master index to more than 8 000 individual Internet files Includes a list of specialized home pages Internet glossary and bibliography Cover **Ethiopia Today** ,2004 **The African American Resource Guide to the Internet and Online Services** Stafford L.
