in higher education over the next decade

**The Internet is Not the Answer** Andrew Keen,2015-01-08 In this sharp and  
witty book long time Silicon Valley observer and author Andrew Keen argues that on balance the Internet has had a  
disastrous impact on all our lives By tracing the history of the Internet from its founding in the 1960s to the creation of the  
World Wide Web in 1989 through the waves of start ups and the rise of the big data companies to the increasing attempts to  
monetize almost every human activity Keen shows how the Web has had a deeply negative effect on our culture economy and  
society Informed by Keen s own research and interviews as well as the work of other writers reporters and academics The  
Internet is Not the Answer is an urgent investigation into the tech world from the threat to privacy posed by social media and  
online surveillance by government agencies to the impact of the Internet on unemployment and economic inequality Keen  
concludes by outlining the changes that he believes must be made before it s too late If we do nothing he warns this new  
technology and the companies that control it will continue to impoverish us all

**The Arts in the Age of Soma** Andrew  
Young (Real name Jacob East),2025-05-15 This passionate book explores the decline of music and cinema as art forms in the  
past 25 years suggesting a new cultural revolution is actually anti culture Music and cinema have been suffocated in a  
cultural environment devoid of creativity and critical thought to numb the public and ensure the people uphold the status quo

*Stretching the Constitution* Andrew Blick,2019-03-21 How far did the European Union EU referendum result of 23 June  
2016 really justify and necessitate the policies executed in response to it What are the implications of that vote and its  
prolonged aftermath for the United Kingdom UK constitution What other challenges does our political system face This book  
seeks to answer these questions It considers from a constitutional perspective the way in which the decision to leave the EU  
was taken and then implemented discussing in particular the role of Parliament as a legislature and political assembly It  
includes a close analysis of the referendum legislation and relevant parliamentary debates The author also considers the

wider implications of Brexit for a system that has changed substantially in the period since the United Kingdom first joined the European Economic Community EEC in 1973 Taking into account the expansive implications of Brexit he considers a variety of aspects of the UK constitution including referendums Parliament devolution and the Union the Civil Service and the so called unwritten constitution from both an historic and contemporary perspective The book then assesses other issues that do not arise directly from Brexit but are likely to have implications for the operation of the system and have a global aspect to them They include political applications of the Internet and climate change Finally the author makes a series of proposals for constitutional and other reforms that will help the UK s democratic system to adapt to its changing environment
