The Great Power Competition Volume 3 Adib Farhadi, Ronald P. Sanders, Anthony Masys, 2022-09-15 For millennia humans waged war on land and sea The 20th century opened the skies and the stars introducing air and space as warfare domains Now the 21st century has revealed perhaps the most insidious domain of all cyberspace the fifth domain A realm free of physical boundaries cyberspace lies at the intersection of technology and psychology where one cannot see one's enemy and the most potent weapon is information The third book in the Great Power Competition series Cyberspace The Fifth Domain explores the emergence of cyberspace as a vector for espionage sabotage crime and war It examines how cyberspace rapidly evolved from a novelty to a weapon capable of influencing global economics and overthrowing regimes wielded by nation states and religious ideologies to stunning effect Cyberspace The Fifth Domain offers a candid look at the United States role in

cyberspace offering realistic prescriptions for responding to international cyber threats on the tactical strategic and doctrinal levels answering the questions of how can we respond to these threats versus how should we respond What are the obstacles to and consequences of strategic and tactical response options What technological solutions are on the horizon Should the U S adopt a more multi domain offensive posture that eschews the dominant cyber vs cyber paradigm To answer these questions experts examine the technological threats to critical infrastructure cyber operations strategy tactics and doctrine information influence operations the weaponization of social media and much more *Congressional Record* United States.
