

# WHAT IS MINDFULNESS?

Staying present in the moment and accepting our feelings and thoughts without judgement

What you are feeling

What you are doing

What you are thinking

## HOW TO CULTIVATE MINDFULNESS

Build self-awareness to know when you are **NOT** mentally in the present moment by redirecting your focus using these simple techniques:

### THOUGHT LOG

When your mind begins to wander, write down these thoughts that keep you from staying present and in the moment.

### BODY SCAN

Deliberately check to work your body. Scan from your head to your feet. Where do you feel tension? Where can you release the tension?

### 3X3 GROUNDING

Shift your awareness to the here and now by naming three things you can see, hear, and feel to bring you back to the "now."

Mortimer, 1888 The Case for Gay Rights David A. J. Richards, 2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion. In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy, intimate life, free speech, tolerance, and conscience that underpin these often heated debates. The distillation of Richards's thirty year advocacy for the rights of gays and lesbians, his book provides a reflective treatise on basic human rights that touch all of our lives. He places in context two key Supreme Court cases: the 1986 *Bowers v. Hardwick* decision and the 2003 *Lawrence v. Texas* decision which overturned it. Drawing upon his own experiences as a gay man, Richards interweaves personal observations with philosophical, political, judicial, and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys. Integrating the two, the field of cognitive hypnotherapy uses the natural trance states of clients to unlock unconscious thoughts and memory patterns that can generate and sustain problems. Cognitive hypnotherapists work within the client's model of the world so that changes are more likely to be subconsciously accepted and become permanent.
