light on Native American women's efforts to obtain prenatal care access to contraception abortion services and access to care after sexual assault Reproductive Justice goes beyond this local story to look more broadly at how race gender sex sexuality class and nation inform the ways in which the government understands reproductive healthcare and organizes the delivery of this care It reveals why the basic experience of reproductive healthcare for most Americans is so different and better than for Native American women in general and women in reservation communities particularly Finally Gurr outlines the strengths that these communities can bring to the creation of their own reproductive justice and considers the role of IHS in fostering these strengths as it moves forward in partnership with Native nations Reproductive Justice offers a respectful and informed analysis of the stories Native American women have to tell about their bodies their lives and their communities

**Indigenous Invisibility in the City**

Deirdre Howard-Wagner, 2020-11-17 *Indigenous Invisibility in the City* contextualises the significant social change in Indigenous life circumstances and resurgence that came out of social movements in cities. It is about Indigenous resurgence and community development by First Nations people for First Nations people in cities. Seventy five years ago First Nations peoples began a significant post war period of relocation to cities in the United States, Canada, Australia and Aotearoa New Zealand. First Nations peoples engaged in projects of resurgence and community development in the cities of the four settler states. First Nations peoples who were motivated by aspirations for autonomy and empowerment went on to create the foundations of Indigenous social infrastructure. This book explains the ways First Nations people in cities created and took control of their own futures. A fact largely wilfully ignored in policy contexts. Today differences exist over the way governments and First Nations peoples see the role and responsibilities of Indigenous institutions in cities. What remains hidden in plain sight is their societal function as a social and political apparatus through which much of the social processes of Indigenous resurgence and community development in cities occurred. The struggle for self determination in settler cities plays out through First Nations people's efforts to sustain their own institutions and resurgence but also rights and recognition in cities. This book will be of interest to Indigenous studies scholars, urban sociologists, urban political scientists, urban studies scholars and development studies scholars interested in urban issues and community building and development. *Native North American Theater in a Global Age* Birgit Däwes, 2007. Indigenous drama is at once the oldest and most innovative, the most heavily displaced and resistant American genre. Despite its increasing international presence over the past two decades, the field has so far been neglected by scholarship. This study seeks to chart the genre in both the U.S. and Canada by its contemporary manifestations from 1968 to 2004 and traces its historical entanglements in simulacral images and colonial surveillance. Placing particular emphasis on the fashioning of cultural identity, this approach situates Native theater in the larger framework of transnational methodologies. General questions of theatricality and representation are complemented by in-depth analyses of 25 plays by authors such as Hanay Geiogamah, Monica Charles, Gerald Vizenor, Spiderwoman Theater, Diane Glancy, Margo Kane, Tomson Highway and Drew Hayden Taylor. **AHA Perspectives**, 2000
