**The Virtual Workplace** Joseph A. Seiner, 2021-06-17 The recent pandemic has clarified the overwhelming connection between the

workplace and technology With thousands of employees suddenly forced to work at home a large segment of the workforce quickly received crash courses in videoconferencing and other technologies and society as a whole took a step back to redefine what employment actually means The virtual workplace is the blending of brick and mortar physical places of business with the advanced technologies that now make it possible for workers to perform their duties outside of the office Trying to regulate in this area requires the application of decades old employment laws to a context never even contemplated by the legislatures that wrote those rules This book explores the emerging issues of virtual work defining employment litigating claims aggregating cases unionizing workers and preventing harassment and provides clarity to these areas synthesizing the current case law statutory rules and academic literature to provide guidance to workers and companies operating in the technology sector *Principles of Marketing for a Digital Age* Tracy L. Tuten, 2022-11-25 From understanding markets consumers and value to explaining the marketing mix and illustrating the roles of analytics brand and customer experience today this award winning textbook introduces you to the essential concepts and tools for marketing in a digital age *The Battle for Your Brain* Nita A. Farahany, 2023-03-14 A new dawn of brain tracking and hacking is coming Will you be prepared for what comes next Imagine a world where your brain can be interrogated to learn your political beliefs your thoughts can be used as evidence of a crime and your own feelings can be held against you A world where people who suffer from epilepsy receive alerts moments before a seizure and the average person can peer into their own mind to eliminate painful memories or cure addictions Neuroscience has already made all of this possible today and neurotechnology will soon become the universal controller for all of our interactions with technology This can benefit humanity immensely but without safeguards it can seriously threaten our fundamental human rights to privacy freedom of thought and self determination From one of the world's foremost experts on the ethics of neuroscience *The Battle for Your Brain* offers a path forward to navigate the complex legal and ethical dilemmas that will fundamentally impact our freedom to understand shape and define ourselves **Books and Pamphlets, Including Serials and Contributions to Periodicals** Library of Congress.
