Subject Guide to Books in Print ,1984 **Low Carb Principles** Mira Skylark,AI,2025-03-14 Low Carb Principles offers a comprehensive guide to understanding and implementing low carbohydrate diets for weight loss and improved metabolic health It delves into the science behind carbohydrate restriction explaining how the body shifts to burning fat for fuel through ketosis Interestingly this concept while not new has evolved significantly with modern nutritional science moving beyond its early 20th century use for managing diabetes and epilepsy

The book emphasizes tailoring the low carb approach to individual needs ensuring sustainability and effectiveness. The book bridges the gap between complex research and practical application. It begins by outlining the roles of macronutrients, moves into the physiological mechanisms of ketosis and fat adaptation, and then explores different low carb diets like ketogenic, Atkins, and low glycemic index. The final sections offer practical guidance on meal planning, exercise, and troubleshooting, empowering readers to make informed decisions about their health and fitness journey.

The 7-day Low-carb Rescue and Recovery Plan Rachael F. Heller, Richard Ferdinand Heller, 2004

Drs. Rachel and Richard Heller, authors of the revolutionary *New York Times* bestselling *Carbohydrate Addict* books, are renowned for their ability to motivate readers with their own combined 200-pound weight loss success. Drs. Heller understand the physical and emotional reasons why people struggle to stay on their low carb diets or fall off them completely. Now comes the right help at the right time: a plan to put the low carb dieter back in control without deprivation in only a week or less. Holidays, vacation stress, boredom, and daily emotional wear and tear are all factors that can chip away at the most sincere diet commitment. What starts out as a simple cheat often leads to bona fide failure. In the end, most low carb dieters are left to watch helplessly as their eating spirals out of control and the pounds creep or rush back on. Drs. Heller know that once someone has fallen off any low carb diet, they need help to get back on and stay on. Now, they offer a day-by-day scientifically based, motivating, and empowering program that will immediately reduce cravings, satisfy the body's need for carbohydrates, and help low carb dieters regain control over their eating and their weight.
