**Down** Matt Rudd,2020-09-10 The most honest most revealing and funniest exploration of male mental health I have ever read Adam Kay Matt Rudd may have written the most important book in a generation Idle Society On the surface men today don t have much to complain about At work they still get paid more than women for doing the same jobs At home they still shirk most of the unpaid labour Putting the bins out does not count Beneath the surface it s a different story An alarming number of men end up anxious exhausted depressed and very reluctant to admit they are Even if they do everything that s expected of them in work life and fatherhood genuine happiness is still elusive By midlife their levels of stress are higher and their levels of wellbeing are lower and work life balance turns out to be just a cruel illusion The evidence is clear and ironic

the system set up by men for men doesn't work for men either. It is making none of us happy. In *Man Down*, Matt Rudd takes the long view on this perplexing paradox. Drawing on stories from his own life and the varied lives of the other men he has interviewed, he goes back to the beginning to consider what makes the modern man. How the seeds of midlife misery are sown in the school playground and cultivated through adolescence and into adulthood. By turns compassionate and provocative, *Man Down* asks the important question: is midlife unhappiness inevitable? Spoiler alert: it isn't. **Newsweek**, 2001-03

*Floor Covering Weekly*, 2006 **The Age of Surveillance Capitalism** Shoshana Zuboff, 2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF THE YEAR ONE OF BARACK OBAMA'S TOP BOOKS OF THE YEAR Shortlisted for The Orwell Prize 2020 Shortlisted for the FT Business Book of the Year Award 2019 Easily the most important book to be published this century. I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas. Zadie Smith *The Guardian* The challenges to humanity posed by the digital future: the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control us. The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in and what we decide now will shape the rest of the century. Our choices allow technology to enrich the few and impoverish the many or harness it and distribute its benefits. *The Age of Surveillance Capitalism* is a deeply reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves. **The Rooms Chronicle**, 2006 **Antitrust After Microsoft** David B. Kopel, 2001 Kopel, a researcher for the Heartland Institute, draws lessons from the Microsoft case and applies them to anti-trust laws on the whole. He describes the impact of emerging technologies, the shifts created by new competitors, the details of the Microsoft case and its relationship to business practices and politics. His argument is deeply suspicious of government regulation of business, especially the regulation of communication technology. c. Book News Inc. *National Journal*, 2007 *Flying*, 2000
