Rational Religion and Morals: Presenting Analysis of the Functions of Mind, Under the Operations and Directions of Reason Thomas J. Vaiden,1852 *Principle and Prudence in Western Political Thought* Christopher Lynch,Jonathan Marks,2016-03-01 Reflections on principle and prudence in the thoughts and actions of great thinkers and statesmen Discussions of the place of moral principle in political practice are haunted by the abstract and misleading distinction between realism and its various principled or idealist alternatives This volume argues that such discussions must be recast in terms of the relationship between principle and prudence as Nathan Tarcov maintains that relationship is not dichotomous but complementary In a substantive introduction the editors investigate Leo Strauss s attack on contemporary political thought for its failure to account for both principle and prudence in politics Leading commentators then reflect on principle and prudence in the writings of great thinkers such as Homer Machiavelli and Hegel and in the thoughts and actions of great statesmen such as Pericles Jefferson and Lincoln In a concluding section contributors reassess Strauss s own approach to principle and prudence in the history of political philosophy *Principle and Prudence in Western Political Thought* contains a series of first rate essays on a if not the central problem of political thought how should and can abstract and general principles inform contingent particularistic political life Catherine H Zuckert coauthor of *Leo Strauss and the Problem of Political Philosophy* *Questions on Natural Science and the Harmonic Philosophy* John Emmett Richardson,1913 *The First Principle in Late Neoplatonism* Jonathan Greig,2020-11-04 In *The First Principle* Jonathan

Greig examines the philosophical theology of the two Neoplatonists Proclus and Damascius 5th 6th centuries A D on the One as the first cause Both philosophers address a tension in the Neoplatonic tradition namely that the One was seen as absolutely transcendent yet it was also seen as intimately related to other things as the source of their unity and being Proclus solution is to posit intermediate causes after the One while Damascius posits a distinct principle the Ineffable above the One This book provides a new thorough study of the theories of causation that lead each to their respective position and reveals crucial insights involved in a rigorous negative theology employed in metaphysics
