**No More Fake Reading** Berit Gordon, 2017-07-07 For middle and high school teachers it's one of today's most vexing problems. How do you motivate students with varied interests and little appetite for classic literature to stop faking their way through texts and start advancing as skilled engaged readers? Independent reading is an important part of the answer, but it's just that a part of the whole. In this groundbreaking book, Berit Gordon offers the complete solution: a blended model that combines the benefits of classic literature with the motivational power of choice reading. With the blended model, teachers lead close examinations of key passages from classic texts, guiding students to an understanding of important reading strategies they can transfer to their choice books. Teachers gain a platform for demonstrating the critical reading skills students so urgently require, and students thrive on reading what they want to read. In this research-backed book, Gordon leads you step by step to classroom success with the blended model, showing the basics of getting your classroom library up and running, how to build a blended curriculum for both fiction and non-fiction units, keeping relevant standards in mind, tips and resources to help with day-to-day planning, ideas for selecting class novel passages that provide essential cultural capital, and bolster students' reading skills. Strategies for bringing talk into your blended reading classroom, how to reach the crucial learning goal of transfer. A practical, user-friendly approach for assessing each student's progress. *No More Fake Reading* gives you all the tools you need to put the blended model to work for your students and transform your classroom into a vibrant reading environment. Berit Gordon coaches teachers as they nurture lifelong readers and writers. Her path as an educator began in the classroom in the Dominican Republic before teaching in New York City public schools. She also taught at the Teachers College of Columbia University in English Education. She currently works as a literacy consultant in grades 3-12 and lives in Maplewood, New Jersey, with her husband and three children.

**Academic Barbarism, Universities and Inequality** Michael O'Sullivan, 2016-04-08 The image of the university is tarnished; this book examines how recent philosophies of education, new readings of its economics, new technologies affecting research and access, and contemporary novelists' representations of university life all describe a global university that has given up on its promise of greater educational equality.

**Cloneliness** Michael O'Sullivan, 2019-09-19 Recent posthuman philosophies, human-computer interface studies, and technology-inspired biopolitical discourses and practices are reinventing and reimagining loneliness in different communities. *Cloneliness: The Reproduction of Loneliness* takes a cross-cultural approach to loneliness by examining 20th-century artistic expressions and examinations of loneliness in the context of more recent global expressions grounded in social networks, virtual reality, the biopolitical commons, academic credentialization, and such practices as Hikikomori. Newer forms of loneliness pushed by the algorithms of biopolitical capitalism result in what this book calls cloneliness. Michael O'Sullivan plots the transformation in loneliness in literature and philosophy in readings that take us from Henry James and such classic works as Frank O'Connor's *The Lonely Voice* and Richard Yates's *Eleven Kinds of Loneliness* to more recent

expressions in such writers as David Foster Wallace Yiyun Li and Sayaka Murata Michael O Sullivan argues that cloneliness as an institutional practice of reproduction in society nurtures normalizes and reproduces loneliness in order to create subjects who are more willing to accept ideologies of competition extreme individualism and the stresses of being interconnected loners *Why Teaching Matters* Paul Farber,Dini Metro-Roland,2020-02-20 Why Teaching Matters is an introductory guide to core elements of teaching getting to the heart of what teaching is and why it matters Paul Farber and Dini Metro Roland introduce the following 8 elements which encompass the many issues themes and social complexities of teaching Conveying Care Enacting Authority Cultivating Virtue Interpreting Subject matter Rendering Judgment Articulating Purpose Establishing a Sense of Place Engaging Presence The focus on the elements of practice frames discussion of teaching as an essential human activity and highlights the kinds of significant issues that teachers face including technology social inequality and the management and evaluation of their work As a philosophical guide it introduces and draws upon a range of thinkers including Nel Noddings Hannah Arendt Hans Georg Gadamer Danielle Allen and James Baldwin whose work informs a deeper understanding of teaching The theoretical discussions are grounded with examples and anecdotes from the classroom so that theory is always connected with practice and questions for further inquiry appear at the end of each chapter Intended for students of education and for new and experienced teachers alike as well as anyone interested in the impact of teaching Why Teaching Matters explores the inherent complexity and challenges of teaching offering a comprehensive account of the many ways in which teaching matters *2001 Novel and Short Story Writer's Market* Barbara Kuroff,Anne Bowling,Nancy Breen,2001 Listing markets agents publishers and more this comprehensive guide is an author's best reference One of the best guides to fiction writer's markets available American Reference Book Annual *The Publishers Weekly*,2008 *Asian Business*,2001 **Credit Book** Produce Reporter Company,1916 **Reader's Block** David Markson,1996 Hypnotic a profoundly rewarding read Kurt Vonnegut **Forthcoming Books** Rose Arny,1998-06 *Farmer's Advocate and Home Journal*,1908 *Annual Report of the St. Louis-San Francisco Railway Company* ... Why does one writer's work become famous while another's remains invisible? *Making Literature Now* tells the stories of the creators, editors, readers, and critics who make their living by making literature itself come alive. The book shows how various conditions including gender, education, business dynamics, social networks, money, and the forces of literary tradition affect the things we can choose or refuse to read. Amy Hungerford focuses her discussion on literary bestsellers as well as little-known traditional and digital literature from smaller presses such as McSweeney's. She deftly matches the particular human stories of the makers with the impersonal structures through which literary reputation is made. Ranging from fine-grained ethnography to polemical argument, this book transforms our sense of how and why new literature appears and disappears in contemporary American culture.

**Remembering David Foster Wallace** Michael Silverblatt, Illinois State University.

Department of English, Publications Unit, 2008\*      **The Pleasures of Reading in an Age of Distraction** Alan

Jacobs, 2011-05-26 In recent years cultural commentators have sounded the alarm about the dire state of reading in America. Americans are not reading enough, they say, or reading the right books in the right way. In this book Alan Jacobs argues that, contrary to the doomsayers, reading is alive and well in America. There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers. Oprah's Book Club is hugely influential and a recent NEA survey reveals an actual uptick in the reading of literary fiction. Jacobs's interactions with his students and the readers of his own books, however, suggest that many readers lack confidence: they wonder whether they are reading well, with proper focus and attentiveness, with due discretion and discernment. Many have absorbed the puritanical message that reading is first and foremost good for you, the intellectual equivalent of eating your Brussels sprouts. For such people, indeed for all readers, Jacobs offers some simple, powerful, and much-needed advice: read at whim, read what gives you delight, and do so without shame, whether it be Stephen King or the King James Version of the Bible. In contrast to the more methodical approach of Mortimer Adler's classic *How to Read a Book* (1940), Jacobs offers an insightful, accessible, and playfully irreverent guide for aspiring readers. Each chapter focuses on one aspect of approaching literary fiction, poetry, or nonfiction and the book explores everything from the invention of silent reading, reading responsively, rereading, and reading on electronic devices. Invitingly written with equal measures of wit and erudition, *The Pleasures of Reading in an Age of Distraction* will appeal to all readers, whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children.
