Pdf Global Governance Democracy Multidisciplinary Analysis:

Global Governance and Democracy Jan Wouters, Antoon Braeckman, Matthias Lievens, Emilie Bécault, 2015-09-25

Globalization needs effective global governance The important question of whether this governance can also become democratic is however the subject of a political and academic debate that began only recently This multidisciplinary book aims to move this conversation forward by drawing insights from international relations political theory international law and international political economy Focusing on global environmental economic security and human rights governance it sheds new light on the democratic deficit of existing global governance structures and proposes a number of tools to overcome it

The Commons and a New Global Governance Samuel Cogolati, Jan Wouters, 2018-12-28 Given the new found importance of the commons in current political discourse it has become increasingly necessary to explore the democratic institutional and legal implications of the commons for global governance today This book analyses and explores the ground breaking model of the commons and its relation to these debates

The G20, Development and the UN Agenda 2030 Dries Lesage, Jan Wouters, 2022-12-31 This book offers a unique assessment of the G20 s development agenda and its potential to be an impactful actor in the global architecture of development cooperation Representing two thirds of the world population 85 percent of economic output 75 percent of global trade and 80 percent of carbon dioxide emissions the G20 embodies an overwhelming concentration of economic and political power enhanced through regular meetings of heads of state and government This position allows it the opportunity to play a significant role in ongoing multilateral policy processes but also to further undermine universal development governance at the UN already challenged by the Bretton Woods institutions OECD and G8 Providing context and a history of the G20 s involvement in development governance expert international contributors consider the outcome of major conferences the perspectives of China India and the EU the shift away from positions held by Western countries and the role of civil society They also offer in depth analysis of the G20 s engagement with issues concerning infrastructure food and agriculture taxation macro economic policy and the Sustainable Development Goals The book will be of interest to scholars and students of development international organisations and global governance

Chinese Perspectives on the International Rule of Law Matthieu Burnay, 2018-07-27 This insightful book investigates the historical political and legal foundations of the Chinese perspectives on the rule of law and the international rule of law Building upon an understanding of the rule of law as an essentially contested concept this book analyses the interactions between the development of the rule of law within China and the Chinese contribution to the international rule of law more particularly in the areas of global trade and security governance

National Constitutions in European and Global Governance: Democracy, Rights, the Rule of Law Anneli Albi, Samo Bardutzky, 2019-05-29 This two volume book published open access brings together leading scholars of constitutional law from twenty nine European countries to revisit the role of national constitutions at a time when decision making has increasingly shifted to the European and transnational level It

offers important insights into three areas First it explores how constitutions reflect the transfer of powers from domestic to European and global institutions Secondly it revisits substantive constitutional values such as the protection of constitutional rights the rule of law democratic participation and constitutional review along with constitutional court judgments that tackle the protection of these rights and values in the transnational context e g with regard to the Data Retention Directive the European Arrest Warrant the ESM Treaty and EU and IMF austerity measures The responsiveness of the ECJ regarding the above rights and values along with the standard of protection is also assessed Thirdly challenges in the context of global governance in relation to judicial review democratic control and accountability are examined On a broader level the contributors were also invited to reflect on what has increasingly been described as the erosion or twilight of constitutionalism or a shift to a thin version of the rule of law democracy and judicial review in the context of Europeanisation and globalisation processes The national reports are complemented by a separately published comparative study which identifies a number of broader trends and challenges that are shared across several Member States and warrant wider discussion The research for this publication and the comparative study were carried out within the framework of the ERC funded project The Role and Future of National Constitutions in European and Global Governance The book is aimed at scholars researchers judges and legal advisors working on the interface between national constitutional law and EU and transnational law The extradition cases are also of interest to scholars and practitioners in the field of criminal law Anneli Albi is Professor of European Law at the University of Kent United Kingdom Samo Bardutzky is Assistant Professor of Constitutional Law at the University of Ljubljana Slovenia

Democracy in Southern Europe Isabelle Calleja Ragonesi,2019-02-28 How have Malta and Cyprus both EU members transitioned from colonial island states to independent democracies With the assistance of primary documentation this book traces the difficult path of these two states to becoming independent liberal democracies by using the pathway of democratization through decolonization Using socio economic and political data analysed through the microscope of political science and international relations theories Isabelle Calleja Ragonesi charts the progress of the two islands in the context of a number of four distinct phases Firstly decolonization independence and achieving the status of procedural democracies secondly post colonial independence consolidating democracy and regime breakdown thirdly sovereign nation state status and second attempts at consolidating democracy and finally attempting to reach substantive democracy status and EU membership The study of these two states is contextualized within the context of democratization in Southern Europe and the cases of Malta and Cyprus provide new insights on the region for scholars of political science and international institutions

Security System Reform and Governance ,2005 A democratically run accountable and efficient security system helps to reduce the risk of violent conflict and establish a secure environment that is conducive to poverty reduction human rights and sustainable development This publication continues efforts by the OECD s Development Assistance Committee DAC to develop tools and instruments for conflict prevention and for improving security and stability in the long term The guidance underlines the positive role that the integrated reform of a country s security system can play in stabilising fragile conflict prone or conflict affected states This includes not only the armed forces police and gendarmerie intelligence services and justice and penal systems but also the civil authorities responsible for oversight and democratic control

Transnational Law & Contemporary Problems ,2010 *Engaging Civil Society* G. Shabbir Cheema,Vesselin Popovski,2010 This book looks at the changing roles of civil society in global and national governance It identifies factors that influence the effectiveness of civil society in promoting democratic governance

European Public-private Collaboration Ulrika Mörth,2008 This book looks at some of the major themes concerning governance in the EU namely the focus on market friendly regulations output legitimacy and how the requirement of efficiency is combined with the requirement of democratic accountability The dilemma between efficiency and democratic accountability is analysed in three cases of close collaboration between public and private actors the European satellite navigation programme Galileo the European Investment Bank and health policies and the European financial market especially the banking sector The background to this interest in the dilemma between efficiency and democratic accountability is that this is a time when the borders between the public and private spheres are being re evaluated transferred and becoming more porous The author

makes a compelling case to show that authority is being shared between public and private actors rather than power being delegated in contrast with the apparent mode of democratic accountability. European Public Private Collaboration will be warmly welcomed by postgraduate students and researchers of European studies and public policy.

Soft Law in Governance and Regulation Ulrika Mörtz, 2004. A rising interdependence among the members of international society and of global civil society has led to an increasing demand for governance without government. The new regulatory mode is characterized as a soft law framework. The contributors to this book define soft law in terms of legally non-binding rules such as recommendations, codes of conduct and declarations, though they acknowledge the difficulty sometimes faced in differentiating between hard and soft law whose boundaries are in practice often blurred. Focussing largely on the European experience, the book shows how soft law in the EU has become an important regulatory tool in traditional policy areas like state aid and in new policy areas especially within EU's employment policy. It also extends the analysis to the international stage, arguing that international institutions such as the OECD, the UN, the IMF and the World Bank have for decades used soft law as a means, indeed their only means, of regulating international agreements. Comparisons between the two arenas are then drawn and indicate very different roles for soft law. This book will appeal to scholars of European law and politics as well as those involved with or interested in the policy implications of this mode of governance.

North and South in the World Political Economy Rafael Reuveny, William R. Thompson, 2008-07-28. Focusing on the problems of the North-South divide, this book is organised into three groups of essays: Problems Afflicting the Global South, Problems Maintaining the North-South Gap, and Particular Points of Conflict and Solutions to Reduce the North-South Gap.

Regulating and Combating Money Laundering and Terrorist Financing Nkechikwu Azinge-Egbiri, 2021-03-01. This book analytically reviews the impact of the global anti-money laundering and counter-terrorist financing (AML/CFT) framework on the compliance trajectory of a number of jurisdictions to this framework. The work begins by examining the international financial sector reform and its evolution to inculcate the global framework for AML/CFT regulations. It challenges the resulting uniform AML/CFT due to its paradoxical impact on the compliance trajectory of African countries and emerging economies (ACs/EEs). This is done through an examination of the pre-conditions for effective regulation and compliance drivers for ACs/EEs that reveals the behavioural impact of the AML/CFT standards on the bloc of countries. Through the application of agency theory, it explores the relationship between ACs/EEs on the one hand and the international financial institutions that formulate, disseminate and facilitate compliance with the global framework for AML/CFT standards on the other. The remaining chapters review empirically the compliance pressures and resulting compliance trajectory of ACs/EEs with the AML/CFT standards. The final part of the book provides a detailed explanation of the compliance challenges of ACs/EEs and the legitimacy concerns that facilitate this. This book offers a new direction on the impact of global AML/CFT standards on ACs/EEs and contributes to the understanding of the conditions under which the global standards are likely to facilitate proactive compliance within these

blocs of countries As such it will be a valuable resource for academics researchers and policy makers working in this area

The OECD DAC Handbook on Security System Reform Supporting Security and Justice OECD,2008-02-27 The OECD DAC Handbook on Security System Reform Supporting Security and Justice contains valuable tools to help encourage a dialogue on security and justice issues and to support a security system reform SSR process through the assessment design and implementation phases **Citizen Access to E-government Services** South Africa. Centre for Public Service Innovation,2003 *The Peacebuilding Process in Postwar Liberia* Alžběta Šváblová,2021 Who are the most important actors in the peacebuilding process in post war Liberia How do they interact in specific institutions on the ground and what are the factors behind the slow pace of the post war reform process This book designed as a qualitative case study with a strong descriptive component provides answers to these questions It highlights the importance of the domestic political landscape for the ultimate fate of the reforms and the role of influential individuals in the process Its findings indicate that despite a rich critical academic debate the current practice of peacebuilding remains shaped by the neo liberal paradigm and remains rather disconnected from the post conflict realities and individuals on the ground Global Governance Edward A. Kolodziej,2021-11-29 How do we prevent the next pandemic Will governments successfully tackle climate change Will they find ways to close the gap between the haves and have nots and to eliminate poverty Which solution democratic or authoritarian will determine the global governance of a flawed nation state system This unique contribution to global studies advances a multidisciplinary theory that the governments of all human societies are the tenuous outcome of the competing solutions to the Imperatives of Order Welfare and Legitimacy OWL The OWL paradigm provides a common framework to evaluate the contrasting responses of the liberal democratic Chinese and Russian solutions to global governance Underscored is the volume's contention that global governance is the overriding issue confronting nation states and the diverse and divided peoples of what is now a global society for the first time in the evolution of the species The volume addresses a wide spectrum of audiences united in their shared resolve that the democracies prevail in a projected century long struggle between democratic and authoritarian regimes to determine global governance Scholars teachers students elected officials policy analysts media professionals and engaged citizens who make self government work will profit from this visionary and provocative study
