the ideas of world system theory that since this time as far as its main structures are concerned compulsory state education given by professional teachers in classrooms it took even universal traits However on the other hand the fact that education became state education organised or at least controlled by the state was the beginning of another tradition line education in the form of state organised educational institutions became a means of creating national identity Universal inclusion as for the light of reason shining for everybody is opposed to more or less nationalist exclusion of all the others shaping the feature of a particular nation state with a particular educational system This fundamental dialectical tension between the universal and the particular was one to the important motives to make this handbook One of the central issues of the country studies is precisely to display the relationship between universal values and the search for national identity Another motive is given by the European dimension of the handbook [Youth Work and Non-formal Learning in Europe's Education Landscape](#) ,2015 This publication marks a quarter of a century of EU youth programmes accompanied by EU youth policy It brings together a range of views and highlights best practices with the aim of stimulating debate about what youth work and non formal learning can contribute alongside other sectors to European education From diverse viewpoints it reviews EU cooperation in the field points to successes and sets out possible future scenarios particularly in the context of the Erasmus programme

2014 2020 Page 2 **Memories: Journey into an Immigrant'S Mind** Emanuel Paparella,2018-08-10 As its title powerfully suggests this bookwhile being a personal memoir a narration of ones life journey from sunrise to sunsettranscends the personal Its uniqueness lies in the fact that these memories are the memories of an immigrant who has lived in the country as a US citizen with an American born father for some sixty years It is much more than a list of events and anecdotes of an immigrant experience It is written in a Dantesque and Vichian spirit and as such it goes beyond the listing of historical events and people More than a physical journey it is an intellectual journey into the mind of an immigrant in search of ones self and ones ethnic identity As such it is a universal journey with which nonimmigrants even native born can easily empathize Our common humanity makes it universal As Dante well put it when he began the narration of his lifes journey In the middle of the journey of our lives I found myself in a dark wood As Dante begins the journey guided by Virgil and Beatrice he finds out that indeed the journey is universal beyond the purely personal As Michelangelo said Ancor imparo I am still learning He uttered such a statement at the venerable age of eighty nine a few days before he died He was still sculpting and learning Likewise if we dare to begin the journey at whatever age we may find ourselves we may soon find out that we too are still learning and the journey may well have a common purpose and destination [Adobe Magazine](#) ,1999
