Sports Analytics

Jin-song Dong,Jing Sun,Xiaofei Xie,Kan Jiang,2025-10-27 This book LNCS 15925 constitutes the refereed proceedings of the Second International Conference on Sports Analytics ISACE 2025 held in Shanghai China during September 26 27 2025 The 21 full papers were carefully reviewed and selected from 57 submissions These papers explore the frontiers of sports analytics which is an interdisciplinary field that integrates artificial intelligence data science psychology and smart devices to enhance athletic performance strategy and decision making

Medical Device

Rommel Garcia,2017-06-06 This book is meant to be a guide to all who want to learn about a highly regulated industry My approach is to give you the reader an example of a fictitious device and we will take it from a conceptual idea all the way to launch and beyond My intention is to

incorporate the best experiences that I and other contributors have had into this book and convert them into laymans terms for those who are in need These experiences can and will be indispensable to beginners and professionals alike who are trying their hand in the medical device industry and to those who have not been out of their silo to help see how each of the systems relate to each as a whole However it should be noted that the contents of this book should be taken only as information and is not intended to demonstrate how companies can be in compliance In some instances there are multiple ways to go through the maze of regulations that are documented and made by agencies because the regulations are pretty much made and designed to be flexible and high level so that companies can adopt their systems which are solely designed for their purposes Therefore this book will try to avoid complicated words and complex technical details of engineering and statistics This book will strive to be an embodiment of the honest to goodness everyday experiences and issues that folks experience while working in the medical device industry
