were formulated in order to foster the relationship with their consumers Methodology Approach Data Analysis In order to meet the objectives this practical study used an inductive mixed methods research approach and a mixed methods research strategy by conducting five focus groups qualitative with 40 young females between 20 to 30 years old and content analysis quantitative of the UK SNS pages of five chosen cosmetic companies based on the uses and gratifications theory and the online relationship cultivation strategy The transcripts of each focus group were analysed carefully in NVivo and Excel in regards to the research objectives by coding the statements into categories Data analysis for the content analysis of the UK SNS pages of the five chosen companies was performed using IBM SPSS Statistics Key Findings Participants exhibit a passive behavior towards the chosen companies SNS pages which differs from the habits in their private usage Analysis of gratification seeking revealed five dimensions Information seeking being up to date on products educational information feedback action features and multimedia The findings of this study indicate that not all companies deliver satisfying content to fulfil the gratification of young females and that the companies have not yet been able to enter into a comprehensive dialogue with their publics Research Limitations Implications Future studies could compare in a longitudinal approach with a greater sample the marketing and communication activities of companies on other SNSs consumer are using and examine other country specific pages CD and Appendix D to I are not included

*The dangers of social media. How cancel culture and shitstorms can affect companies and how to recover from it* Kira Mertens, 2022-05-31 Bachelor Thesis from the year 2020 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 1 Westfälische Hochschule Gelsenkirchen Bocholt Recklinghausen language English abstract The following Bachelor thesis is meant to analyze if and how cancel culture and shitstorms online especially on social media can affect companies and how affected companies can recover from the outcomes For avid social media users online shitstorms especially on the platform Twitter can frequently be witnessed It was therefore a very interesting topic to look further into to be able to understand what can trigger a shitstorm and what the consequences for companies could look like This thesis is also supposed to answer if or how a company can recover from a shitstorm if they were affected by one Furthermore it is meant to show what effective measurements could look like and if shitstorms could even be prevented in the first place and if yes how they could be prevented To achieve that the first step will be to take a closer look at what makes social media so important to businesses For that an insight on the most important social media apps and websites will be given After that the dangers of social media to companies will be analyzed The thesis will then continue by showing what makes shitstorms and cancel culture dangerous to a company To achieve that possible triggers of a shitstorm will be analyzed as well as what phases a shitstorm has and what possible outcomes could look like Furthermore a closer look will be taken at how consumers react to shitstorms by analyzing the results of a self made survey The survey was made to understand if and how consumers let shitstorms influence their buying decisions and if they would stop buying a certain product or brand if they were involved in a shitstorm Following that three

companies Nestl Amazon and Nike which have already been at the center of a shitstorm will be analyzed as case studies To analyze the companies a closer look will be taken at the reasons for these shitstorms how each company was affected in terms of image and revenue and how they handled the situation Furthermore it will be explained if shitstorms could be prevented in the first place and how to successfully manage and recover from a shitstorm when affected by one For this a best practice example will be given in chapter 6
