Dear Skyler McKenzie,

I am excited to be applying for the position of deal desk. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for exceptional service to our customers and highly accurate input into our customer relationship management system including Salesforce and NetSuite.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Top notch responsiveness to sales team, any time
- Detail oriented in a fast paced environment
- Backbone to do / advise what is right
- Solid business judgment on what is important in commercial agreements
- Hands on, roll up sleeves
- Experience with SalesForce and Netsuite
- Demonstrated track record of competence (business or technical) in prior assignments
- Highly organized and able to keep multiple projects and project threads on track

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
Azariah Davis

Dealing with Problem Employees The Editors of Nolo, 2025-12-30 This book guides business owners managers and supervisors in identifying difficult employees managing them during the employment relationship and when necessary terminating them in a way that minimizes the company s legal risk of a wrongful termination lawsuit It will give employers the confidence to deal with problem workers directly and make the tough decision to terminate when the situation clearly isn t improving

Innovation, Automation and a Sustainable Economy Jon-Arild Johannessen, 2024-04-03 Economic inequality the environmental crisis and the climate crisis are systemically linked Accordingly they should be understood as a single interconnected system and strategies for resolving them should be guided by this understanding This book demonstrates how the Green New Deal and its systemic alternative the Red New Deal could influence the course of these three global crises all within the context of the Fourth Industrial Revolution The author has developed several scenarios that are relevant to the automation that will result from advances in artificial intelligence and intelligent robots The first is one of mass unemployment while the second envisages low rates of unemployment although workers will experience stagnation and then a decline in their wages It is possible to envisage a different set of scenarios however we must replace the capitalist economic model with a different model mutualism a sustainable model that would allow for economic growth while also addressing the three current systemic crises The author argues that if such a model is implemented there will be jobs for everyone and the climate crisis will be tackled because people s welfare will be prioritized over profit We can assert that

such a model will foster the development of economic equality The basic premise of this mutual and sustainable economic model is that sustainability is in everyone s interests The book employs not only established and innovative methods such as literature reviews scenario thinking and historical methods to underpin its arguments but also conceptual generalization as an intellectual tool to tackle the general research problem thus it will be an invaluable resource for scholars and students of sustainability and the innovation economy
