**Memory, Fear and Ghosts** Russell Breighner, Ghost stories are in many cases the human memory of some traumatic experience For reasons not yet understood in cases of extreme fear the mind creates a record that survives outside the originator s experience A reason why scientists have not studied these events is that they currently reside in the literature of the occult primarily as ghost stories tales of lost spirits trapped in some eternal vortex A review of this occult literature unearths much that has been misinterpreted Further investigation is needed to determine the full potential of this finding and its application to neurophysiology *British Humanities Index* ,2009

**Memory'S Ghost** Philip J. Hilts,1996-08-02 In an experiment that occurred some forty years ago Henry M s memory was stolen from him during a highly controversial operation performed to cure his epilepsy Henry has lived in the immediate present ever since unable to connect a past moment with the next incapable of retaining or recalling any physical or emotional experience Philip J Hilts one of the few people to spend time with Henry who is sequestered in a hospital draws on Henry s bizarre situation as well as current cutting edge research into the functions of the brain in a revealing investigation of How an individual s memory is constructed When and why memory fails The efficacy of mnemonic devices The validity of recovered memories Part poetic reflection and philosophical meditation part popular science and investigative journalism Memory s Ghost is an unforgettable journey into the mysteries of the human mind

**Ghosts in Solid Form** Gambier Bolton,2019-10-07 As scientists in many parts of the world today are turning their serious attention to the question of the origin and the possible continuity of Life I feel that the time has now arrived when a text book on the subject of the phenomena known to investigators as Materialisations should be issued to the public in order to assist inquirers both scientists and laymen in their endeavour to solve these vitally important matters as in my opinion it is by no means improbable that in Materialisations we may find the clue which will eventually enable us to solve the question asked by each cradle Whence and by each coffin Whither This text book contains in plain and simple language the results of a series of experiments carried out during a period of seven years With the exception of a few conducted by that master scientist Sir William Crookes President of the Royal Society London

and referred to in Chapter III to which mine were in the nature of a sequel all were carried out in my presence and the reports on these experiments have been collated from the official records kept by my three research societies in London

Ghost Hunters Deborah Blum, 2007-05-29 The Pulitzer Prize winning author of *The Poison Squad* and *The Poisoner's Handbook* tells the amazing story of William James's quest for empirical evidence of the spirit world What if a world renowned philosopher and professor of psychiatry at Harvard suddenly announced he believed in ghosts At the close of the nineteenth century the illustrious William James led a determined scientific investigation into unexplainable incidences of clairvoyance and ghostly visitations James and a small group of eminent scientists staked their reputations their careers even their sanity on one of the most extraordinary quests ever undertaken to empirically prove the existence of ghosts spirits and psychic phenomena What they pursued and what they found raises questions as fascinating today as they were then

**Paranormal Technology** David M. Rountree, 2010-08-26 *Paranormal Technology* is the first book to provide a scientific method for ghost hunting which includes in depth explanations of what the collected data means *Paranormal Technology* offers new techniques answers questions and provides experiments which will help bridge the gap between the paranormal and science Written in everyday language it offers keen insights into the nature of paranormal phenomena the protocols required for collecting evidence that will stand up to scientific scrutiny and the possible theories that may explain the source of Ghosts Currently employed test equipment is examined and proper use is covered in great detail *Paranormal Technology* is an indispensable aid to any scientific researcher or ghost hunting group whether you are a beginner or with many years of experience This book is not a means to an end but rather an invitation to a fresh beginning

**An Essay on Demonology, Ghosts and Apparitions, and Popular Superstitions** James Thacher, 2021-05-19 In *An Essay on Demonology Ghosts and Apparitions and Popular Superstitions* James Thacher embarks on an intellectual exploration of the supernatural analyzing the cultural perceptions and historical contexts surrounding demons and apparitions Through a critical lens Thacher combines empirical observation with a richly narrative style drawing from folklore biblical scripture and contemporary anecdotes to illuminate how societal fears and beliefs manifest in the realm of the supernatural His text reflects the late 18th century Enlightenment thought grappling with the tension between reason and superstition making it a vital contribution to the discourse on human belief systems James Thacher an esteemed physician and writer in early America directed his keen intellect toward understanding phenomena that baffled both the scientific and lay communities of his time Born in a period fraught with superstition Thacher's medical practice exposed him to diverse belief systems while simultaneously providing a grounding in rational inquiry His background likely influenced his desire to demystify ghostly occurrences and popular superstitions through a rational examination rendering them accessible to an audience steeped in both fear and fascination This thought provoking essay is a must read for anyone intrigued by the intersection of science belief and the uncanny Thacher's articulate prose and rigorous analysis invite readers to reflect on the nature of fear and belief and challenge them

to reassess what lies beyond the empirical realm Whether you are a scholar of literary history or simply a curious enthusiast of the supernatural this book will enrich your understanding of the human condition      **Apparitions and Ghosts** Andrew MacKenzie,1971      **A Century of Ghost Stories** Richard Sugg,2017-03-31 This book presents one hundred real life stories from the nineteenth century press Along with accounts of ghosts poltergeists and haunted houses we meet extraordinary reports of the dying appearing hundreds or thousands of miles from the sight of their death and living people who quite literally appear in two places at once Analysing and interpreting these stories in the light of modern paranormal events and scientific findings Century aims to show that ghosts and poltergeists certainly do exist It offers a range of persuasive theories about what they really are and what they mean and screws the microscope down on the details of ghost sightings and poltergeist incidents Why are some ghosts grey or vague and others able to pass as living people Can ghosts speak How do ghosts or poltergeists use human energy and particularly the energy of the young or the traumatised How do such phenomena relate to light to electromagnetism and even the body s circadian rhythms This is a book about ghosts and poltergeists by someone who never expected to take them seriously It is a book inspired by the strange experience of continually hearing such stories from people who kept them hidden until they were prompted to speak It aims to help those who have suffered from the trauma of poltergeists and to bring back into the open experiences which in the developed world have become a new kind of taboo It is a book for anyone interested in the extraordinary effects of human emotion the fringes of biology and physics and the possible survival of human consciousness after death      *Ghosts, Possessions, and Unexplained Presences* Kate Shoup,2017-07-15 Since the beginning of humanity many people have supported the idea of spirits ghosts and an afterlife This book explores some well known and frightening real life encounters and looks to what scientific approaches have been tested to prove or disprove the existence of these otherworldly presences Complete with photographs firsthand accounts elaborate hoaxes and scientific evidence this book explores the otherworldly and is sure to enthrall the inner ghost hunter
