vocabulary knowledge syntactic skills memory and discourse level skills such as the ability to make inferences knowledge about text structure and metacognitive skills The authors discuss how each one contributes to the development of reading comprehension skill and how the development of these skills or their precursors in pre readers provides the foundation for reading comprehension development Areas covered include Word reading and comprehension Development of comprehension skills Comprehension difficulties Assessment Teaching for improvement Throughout the text successful experimental and classroom based interventions will be highlighted practical tips for teachers and summary boxes detailing key points and explaining technical terms will be included in each chapter
