The culprit is bureaucracy. With its top-down power structures and rule-choked systems, bureaucracy hobbles ingenuity and innovation. In a time of upheaval, these long-tolerated impediments are fast becoming competitively and economically untenable. Humanity needs and deserves something better. In *Humanocracy*, Gary Hamel and Michele Zanini make a passionate, data-driven argument for unstalling bureaucracy and reinventing management as we know it. In this extensively updated and expanded edition, readers will find new and compelling case studies, the latest research findings, and a wealth of fresh and provocative insights. *Humanocracy* is both a manifesto for institutional renewal and a blueprint for building organizations that are as courageous, energetic, and ingenious as the people inside them. Essential building blocks include: Motivation, Rallying colleagues to the challenge of reimagining management as usual; Models, Leveraging the experience of vanguard organizations that have successfully disrupted the bureaucratic status quo; Mindsets, Escaping the industrial age thinking that undermines the quest to build radically more capable organizations; Mobilization, Activating a pro-change coalition to hack outmoded management systems and processes; Migration, Embedding the principles of humanocracy; ownership, markets, meritocracy, community, openness, experimentation, and paradox in your organization's DNA. If you've finally run out of patience with bureaucratic bullshit, if you're eager to build an organization that can outrun change and outperform expectations, if you believe every team member deserves the chance to do something extraordinary, then this book is for you. *Strategic Management* Jeffrey H. Dyer, Paul C. Godfrey, Robert J. Jensen, David J. Bryce, 2020-09-04 Strategic Management delivers an insightful, clear, concise introduction to strategy management concepts and links these concepts to the skills and knowledge students need to be successful in the professional world. Branding Between the Ears: Using Cognitive Science to Build Lasting Customer Connections Sandeep Dayal, 2021-11-30

Build a cognitive brand that connects with your customers in the deepest, most meaningful ways. Successful marketing is all about unlocking the door to people's thoughts, feelings, memories, and fantasies. Tap into one or more of these, and your brand will stick forever. In *Branding Between the Ears*, world-renowned marketing thought leader Sandeep Dayal explains how to leverage behavioral psychology, social anthropology, and neuroscience to decode what goes on in consumer minds and create effective marketing strategies to build the kind of loyalty that fuels today's iconic brands. Dayal reveals that most successful cognitive brands are architected around three questions consumers ask themselves: Does this brand give me good vibes? Does what this brand says make sense to me? Will I be happier if I buy this brand? These three factors—good brand vibes, brand sense, and brand resolve—are the hidden mantra that push customers off the fence of indecision and get them not just to admire but actually buy the brands again and again. *Branding Between the Ears* reveals paradigm shifts in building and executing brands that are informed by a burgeoning body of research in brain sciences and offers a better way to make brands that not just stand out but connect with consumers and embed deeply in their thoughts to drive choice. Dayal is the marketing thought leader who predicted that consumer collaboration would be the key factor in winning people's trust online and giving consumers control over their personal information would be central to gaining their trust. Issues that are unfolding today. Now, with *Branding Between the Ears*, he provides equally prescient principles and new ideas for gaining the competitive edge in a largely uncertain future and winning with cognitive power brands.
