Analysing Society and Media](#) Vesna Lukovic, Marja Novak Vogric, 2024-07-09 Human history is a history of powerful civilisations which collapsed for various reasons but behind all of those reasons there was the inability of each civilisation to adapt to changes that were introduced by the human race itself or by the external environment Judging from history we can expect that our civilisation might collapse as well This book takes a look at the huge changes brought by new technology that was introduced by humans over the past few decades and might have the power to destroy the modern civilisation It analyses social disadvantages of the new technology and attempts to answer the question of what has to be done to enable society to adapt to the new technology embrace it and use it for the collective good It also explains how to recognize fake news why Orson Welles was a fake news visionary and why Monica Lewinsky was one of the first victims of the modern new technology

Pacific Economic Bulletin, 2006 **Employee Costs and the Decline in Health Insurance Coverage** David M. Cutler, 2002 This paper examines why health insurance coverage fell despite the lengthy economic boom of the 1990s I show that insurance coverage declined primarily because fewer workers took up coverage when offered it not because fewer workers were offered insurance or were eligible for it The reduction in take up is associated with the increase in employee costs for health insurance Estimates suggest that increased costs to employees can explain the entire decline in take up rates in the 1990s
