Ludicrous Edward Niedermeyer, 2019-08-20 Tesla is the most exciting car company in a generation but can it live up to the hype. Tesla Motors and CEO Elon Musk have become household names shaking up the staid auto industry by creating a set of innovative electric vehicles that have wowed the marketplace and defied conventional wisdom. The company's market valuation now rivals that of long established automakers and to many industry observers Tesla is defining the future of the industry. But behind the hype Tesla has some serious deficiencies that raise questions about its sky high valuation and even its ultimate survival. Tesla's commitment to innovation has led it to reject the careful zero defects approach of other car manufacturers even as it struggles to mass produce cars reliably and with minimal defects. While most car manufacturers struggle with the razor thin margins of mid priced sedans Tesla's strategy requires that the Model 3 finally bring it to profitability even as the high priced Roadster and Model S both lost money. And Tesla's approach of continually focusing on the future even as commitments and deadlines are repeatedly missed may ultimately test the patience of all but its most devoted fans. In Ludicrous journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day to day realities of the company and the cars it produces. Blending original reporting and never before published insider accounts with savvy industry analysis Niedermeyer tells the story of Tesla as it's never been told before with clear eyes objectivity and insight.

Marketing Case Study Tesla Ricardo Escoda, 2018-05-18 Case Study from the year 2018 in the subject Business economics Offline Marketing and Online Marketing grade 1 3 International School of Management Campus Munich language English abstract As the number of publications referring to Tesla increased formidable during the last years it is a highly discussed automotive brand which is becoming more and more important. In August 2017 the Bernstein Research Institute published a study dealing with brand enjoyment and service experiences of 286 Tesla owners which resulted in a fanatical brand loyalty autonomous of the region the participants lived in. This paper deals with aspects of Global Marketing Management and Customer Relationship Management which on the one hand include growth drivers and complexities that underpin the strategy of Tesla in its quest to exercise market power in a very competitive automotive market place and on the other hand examine how Tesla was able to connect its customers as

prominent iconic luxury brand In the end of this paper a blue print model on how Tesla might build and embrace a customer driven marketing strategy aimed at building tighter bonds with its loyal customers and delivering added value will be proposed

Economics of Economy Pricing Marin Muzhani,2023 The economy of the industrialized countries in the 21st

century has already moved to a new level of mass production and technology never seen before thanks in part to globalization advanced technologies new organization management methods and innovative supply chain A relatively large number of mass produced commodities characterized as non premium and services in Western economies are somehow sold at discounts rather than regular prices at a much higher frequency that was never seen before This phenomenon has completely changed how we look at the theory of the firm in microeconomics This book is indented to introduce new ideas and theories by challenging the current modern micro and macro economic theories In a globalized world the economies of advanced countries have entered a new phase called economy pricing where most of the mass commodities are sold at a low price during certain periods of the year called sales events In addition to low prices most industrialized countries have had record low inflation low interest rates low growth and low unemployment rates This book will contend how the Economy Pricing System is about to revolutionize how people look at a real economy s micro and macro effects
