Business Basics for Veterinarians Lowell J. Ackerman, 2002 While many veterinarians choose to believe that expertise in medicine necessarily precludes having business sense nothing could be further from the truth In fact business and medicine are both evidence based disciplines with much in common When a patient is sick we use standard algorithms to determine the most likely causes and run appropriate diagnostic tests We do the same thing with a business that is in failing health We might run an inventory audit instead of a radiograph or look at financial statements rather than laboratory results but the problem solving approach is the same Once a medical problem is unearthed we prescribe appropriate treatment The same holds for businesses A practice may not need an antibiotic injection but an infusion of capital might be just what the doctor orders for an outdated facility Finally once the problem is corrected we periodically monitor the patient with wellness exams assuring continued health Businesses are no different We continue to take their vital signs benchmark them against established normals and make sure that they continue on a healthful trend What could possibly be a more natural extension of expertise than applying the same care to practice management as patient management **Get Growing** Jessica Brady, 2026-04-20 Your money can grow So can you Money is one of the most powerful tools you have to shape your life Yet so many of us feel overwhelmed by finances embarrassed about our money habits or stuck in a cycle of earning and spending with nothing to show for it In *Get Growing* author Jessica Brady cuts through the jargon and judgement to deliver a refreshingly honest down to earth and slightly swearsy guide for growing your wealth With a background as a financial adviser and host of the popular *Financially Fierce* podcast Jess has spent more than two decades helping people untangle their finances In this book she shows you how to weed out debt and bad habits and plant the seeds for long term financial security *Get Growing* combines behavioural science practical frameworks and candid stories from real people to create a money companion you'll return to again and again Discover how to Spot and slay the money monsters sabotaging your financial decisions Build a goals based money ecosystem that automates savings and dials down daily money stress Start investing confidently and ethically even if you're a complete beginner Protect yourself from financial storms with smart insurance and estate planning strategies Create your own financial independence and flourish in the life you dream of Ready to get your hands dirty *Get Growing* will give you the knowledge tools and not so gentle kick up the backside to build genuine financial freedom on your own terms It's time to ditch the shame and grow something worthwhile **It's Your Time** Donna McCaw, 2017-01-02 According to retirement expert Donna McCaw successful retirees approach their retirement the way an experienced outdoors person approaches a canoe trip by over preparing and then going with the flow Like a canoe trip retirement can be both safe and exciting and retirement expert Donna McCaw shows readers how in this practical and entertaining book now fully revised and updated *It's Your Time* focuses on retirement advice for Canadians but its principles are applicable to retirees anywhere McCaw shows how you can plan the retirement that fits you how you can enter this
