Ai Tools Last 90 Days Tutorial:

SWITCH OFF: The Remote Worker's Guide to Digital Sanity & Unlocking Deep Focus Dareios Little,2025-09-22

The Remote Hustle is burning you out You're not lazy you're digitally saturated You embraced the remote life for freedom but it delivered non stop notifications endless Zoom meetings and 24/7 access. Switch Off is the definitive toolkit for the professional who wants to stop being owned by their screen and start architecting clarity. Author Dareios Little delivers a brutal honest and practical guide to reclaiming your time protecting your energy and achieving the Deep Focus that separates high performers from the perpetually busy. Inside you will master The 30 Day Digital Detox Protocol A step by step roadmap to audit your digital life enforce boundaries and schedule your recovery see Week 1 Audit Workspace Armor Tactics to physically and digitally shield your focus turning your home office into a Flow State Generator The Recovery Protocol Your rapid healing kit for anxiety mental fog and digital overload AI Efficiency Workflows Strategies to automate redundant tasks and stop serving the screen so the screen serves you. This book is your blueprint for maximizing output while minimizing burnout. If you are a remote worker entrepreneur or creator this is your edge. Switch Off and start focusing on what truly matters DISCOVER. ENGAGE. WIN. Zachary Lawrence Harper,2025-10-22 The definitive guide to transforming talent acquisition from a reactive service function into a proactive competitive advantage. This is fully guide designed to help Human Resources and Recruiting Professionals adapt to the future of AI and Talent Discovery **The Borderless**

Healthcare Revolution Sarah Matt,2025-11-19 Concrete hands on strategies for making healthcare more accessible for everyone. The Borderless Healthcare Revolution The Definitive Guide to Breaking Geographic Barriers Through Technology is your field guide to a future in which a clinic visit is never farther away than the nearest screen and a surgeon's skill can cross oceans in real time. Drawing on two decades at the intersection of medicine and technology including years as a senior leader at Oracle's global health division Dr Sarah Matt translates frontier grade innovation into day to day practice for clinicians health system strategists and policymakers who refuse to accept geography as destiny. Inside you will find concrete playbooks rather than platitudes every framework has been piloted in settings that range from Manhattan cath labs to Kenyan community clinics. You will also meet the patients and providers whose lived stories prove that digital transformation works only when it works for everyone. What you will learn The tech that already moves care without moving patients telemedicine remote surgery ambient AI and how adoption curves exploded after 2020 with more than three quarters of US hospitals now running telehealth programs. Human centered design tactics that translate pixels into trust from inclusive language pivots to offline first apps that respect bandwidth deserts. A five pillar access audit that flags physical financial cultural digital and trust barriers in any market plus scorecards to track progress. Strategy checklists forged during Dr Matt's tenure at Oracle for aligning payers regulators and vendors around sustainable reimbursement models. Future readiness briefs on robotics and mixed reality training at a moment when the surgical robotics market is projected to triple by 2031

Whether you lead a rural health network build digital products or craft policy The Borderless Healthcare Revolution The Definitive Guide to Breaking Geographic Barriers Through Technology gives you the tools to expand access today and blueprint the borderless systems of tomorrow Read it then use it to deliver care that travels at the speed of need [AI LAW MODEL FOR ETHICAL LEGISLATION: STRATEGIC RECOMMENDATIONS FOR THE REGULATION OF ARTIFICIAL INTELLIGENCE](#) Oleksii Kostenko,2025-10-20 This study the AI Law Model for Ethical Law Strategic Recommendations for the Regulation of Artificial Intelligence was created as a conscious and purposeful scientific paradigm for systemic flaws and hidden vulnerabilities identified in existing and draft regulations of the USA EU PRC and other leading jurisdictions in the field of artificial intelligence A comprehensive analysis of international practice shows that even the most ambitious and technologically advanced AI acts leave significant gaps from vague and contradictory definitions of basic concepts insufficiently elaborated and fragmented ethical requirements to the complete absence or insufficiency of a deep assessment of the socio psychological and cultural consequences of AI implementation Such shortcomings and regulatory gaps can lead to serious legal conflicts ethical crises increased social tensions as well as to the loss or undermining of public trust in digital institutions and public policy in general The purpose of the project Model AI Law for Ethical Law Strategic Recommendations for the Regulation of Artificial Intelligence is not only to warn against mechanical and little critical copying of foreign regulatory models but also to form a thorough approach adapted to the realities of national jurisdictions based on deep interdisciplinary expertise and comprehensive risk analysis This approach involves considering the legal technical ethical social cultural and medical aspects of AI implementation which makes it possible to consider LLM technology as a multidimensional phenomenon with long term consequences The key idea is that AI laws cannot be the product of the work of narrow profile initiators who are far from a systematic understanding of the technology or authors specializing exclusively in one field law technology medicine etc without proper involvement of related fields Only a broad association of interdisciplinary lawyers highly qualified technical specialists sociologists psychologists doctors ethicists cybersecurity and risk management specialists as part of integrated research groups provides a real opportunity to cover the entire range of direct and indirect risks as well as to predict the long term social economic and political consequences of the development and use of AI The structure of the study provides not only a formal statement of provisions but also sections that define and disclose in detail the fundamental principles of human centeredness transparency accountability non discrimination and cyber resilience taking into account international standards and scientific approaches At the same time these sections are combined with analytical blocks which systematically describe problem areas identified in other countries provide examples of negative consequences of ignoring these principles and formulate recommendations for avoiding such risks in Ukrainian legislation In particular the following critical aspects are emphasized legal gaps and lack of clearly defined enforcement mechanisms that allow individual actors to avoid or minimize liability for the direct or indirect harmful consequences of the

use of AI including economic ethical and social losses the lack of a single scientifically based and normatively fixed risk assessment scale which complicates the objective identification of the level of danger of specific AI solutions and creates opportunities for conscious or unintentional manipulations in the classification of systems in particular in order to avoid regulatory requirements or reduce the scope of verification measures lack of effective transparent and legally enshrined mechanisms of public control and independent audit capable of ensuring systematic monitoring objective assessment and public information about the compliance of AI systems with ethical and legal standards ignoring a deep and comprehensive analysis of the psychological emotional and sociocultural impacts of AI on vulnerable populations including children the elderly people with disabilities and other socially sensitive categories which can lead to deepening inequality social exclusion and negative transformations of cultural values weak integration and insufficient regulatory consolidation of internationally recognized technical standards and protocols into legal regulation which complicates the unification of requirements reduces the compatibility of national solutions with global ecosystems and creates risks of technical and legal fragmentation Thus this draft law is not only a draft law in the traditional sense but also a deeply thought out analytical and regulatory warning designed to become a conceptual guide for future state policy in the field of artificial intelligence Its task is to incorporate a multi level preventive mechanism into AI legislation that would combine preventive adaptive and corrective regulatory tools that can flexibly respond to new technological challenges and ethical dilemmas The implementation of this approach should guarantee not only a formal balance between legal regulation technological innovation and public security but also ensure the stability of this balance in the context of rapid transformations and global competition avoiding strategic and tactical mistakes already made by world leaders in this area

Insect Control Guide ,1995 PC AI. ,1991 Geriatric

Medicine and Elderly Care Claire G. Nicholl,K. Jane Wilson,Shaun D'Souza,2025-02-10 GERIATRIC MEDICINE AND ELDERLY CARE Lecture Notes Ninth Edition An essential resource for meeting the needs of an ageing patient population As the global population ages geriatric medicine is steadily becoming one of the most important areas of medical research and care Healthcare systems in developed countries are adapting to this shift in the population and doctors are finding that a larger and larger proportion of their patients are older Current medical training often does not include adequate coverage of geriatric medicine and students may well find they require more extensive resources for meeting older patients needs Lecture Notes Geriatric Medicine and Elderly Care meets this need with a set of comprehensive but straightforward introductions to the foundational concepts of geriatric medicine Combining a user friendly format with extensive high quality figures and illustrations it is a must have resource for medical students looking to deepen their knowledge of a widening area of essential care Now thoroughly revised and updated to reflect the latest research and medical knowledge of ageing and elder care this is an essential contribution to the popular Lecture Notes series Readers of the ninth edition of Lecture Notes Geriatric Medicine and Elderly Care will also find New chapters on the science of ageing including immunosenescence and

rejuvenation research and geriatric oncology Full coverage of the British Geriatrics Society and European undergraduate curriculums A companion website with appendices key revision points for each chapter and further readings Lecture Notes Geriatric Medicine and Elderly Care is ideal for medical students and Foundation Year doctors in most specialties who are treating frail older people It also provides a starting point for revision for higher specialty examinations in geriatric medicine Anki Revision Cards A set of Anki App digital revision cards is available to go with this textbook The cards contain the material from the self test questions in the book Anki App is a cross platform mobile and desktop flashcard app that can support your studies see www.ankiapp.com It uses an algorithm to present cards you know less well more frequently You can keep the cards on your mobile device and study them in your downtime Visit www.lecturenoteseries.paediatrics.com to download the card set to your device
