survey of the state of American public education It examines the trend in the quality of the public schools over the past 100
years and reviews the possible reasons for a decline in quality The work focuses on the importance of local control in
American public education and how it has been steadily eroded Franciosi advocates school choice as a way of restoring
greater control by parents over their children s schools This work is distinct among calls of reform in that it takes a skeptical
attitude towards the centralized school reform movement that has culminated in the No Child Left Behind Act It discusses
important topics that have been the subject of research including the effect of teachers unions Tiebout competition and local
control and school finance reform Franciosi follows the many trajectories taken by America s public schools over the past
century It shows that the United States has been a world education leader in both access for all children and resources spent
